

GOVERNMENT DEPARTMENTS AND AGENCIES — WATER AND ELECTRICITY USE

1709. Mr B.S. Wyatt to the Deputy Premier; Minister for Health; Indigenous Affairs

- (1) What was the total volume of water (in litres) and amount of electricity (in kilowatt hours) used by each department and agency under the Deputy Premier's control, including the Ministerial Office, during the following financial years:
 - (a) 2005 – 2006;
 - (b) 2007 – 2008; and
 - (c) 2008 – 2009?
- (2) Can the Deputy Premier provide corresponding figures for each specific department, agency or office, including the name of each specific department, agency or office?

Dr K.D. HAMES replied:

- (1a-b) The Government will not be providing a response for previous administrations.
- (1c-2) Electricity consumption for 2008/09 is currently being collated as part of the annual Energy Smart Government report. The information will be made available once the Sustainable Energy Development Office has completed the report.

Water consumption for each agency and their individual offices is not available as in a majority of cases, water charges are included as part of a general charge for outgoings and usage is not communicated to individual tenants of multi tenanted buildings.
