

PLANNING, HOUSING DENSITY OF R80 AND ABOVE

585. Hon. C.L. Edwardes to the Minister for Planning and Infrastructure

I refer to the answer to question on notice No. 240 and ask will the Minister rule out housing density of R80 and above and if not, why not?

Ms A.J. MacTIERNAN replied:

I am not yet in the position of advising on the most suitable residential density coding for any rezoning proposal for the Carine TAFE campus site. No rezoning process has yet been undertaken. The residential density of any proposed rezoning will be contingent on determinations of the City of Stirling and the Western Australian Planning Commission, following consultation with the community and other government agencies, through the statutory planning process.
