

PUBLIC HOUSING — STOCK

1845. Hon Dr Brad Pettitt to the minister representing the Minister for Housing:

I refer to public housing properties managed by the State Government during the period from 1 January 2023 to date, and I ask will the Minister table following broken down by region and property type:

- (a) the occupancy rate of all properties;
- (b) the number of properties deemed to be non-tenantable;
- (c) of the properties at (b), the number:
 - (i) the government has decided to:
 - (A) dispose of; and
 - (B) redevelop; and
 - (ii) the number currently under consideration for redevelopment; and
- (d) for each of the past 5 calendar or financial years, the median time for redevelopment of an non-tenantable property to be completed?

Hon Jackie Jarvis replied:

- (a)–(d) The Department of Communities public housing reporting system captures occupancy data at a ‘point in time’ and is thus unable to provide a cumulative figure. As such the data is unable to be provided in the format requested.
