

MARGARET RIVER PRIMARY SCHOOL

**Hon BARRY HOUSE to the minister representing the Minister for Education and Training:**

Notice of this question was given some time ago.

- (1) How many students from Augusta attend Margaret River Primary School?
- (2) Are there plans for a new government primary school to be built in the Margaret River area?
- (3) If so, what site has been identified, and when will the school be built?
- (4) If not, why not, given that the current enrolment at Margaret River is well over 600 children, and growing rapidly, for which an eighth transportable classroom has just been installed?

**Hon LJILJANNA RAVLICH replied:**

I thank the member for some notice of this question. Unfortunately, I do not have a response to that specific question, although I have an answer to another question. If, however, the answer to the question that has been asked comes through prior to the end of question time, I will be more than happy to provide the answer to the honourable member.
