

STATE INFRASTRUCTURE STRATEGY

669. Hon TJORN SIBMA to the Leader of the House representing the Minister for Transport:

This is a question from last Tuesday, 9 August, numbered 666—the question of the beast!

I refer to the recently released state infrastructure strategy that recommends further investigating the merit and staging of investments in the rail growth plan.

- (1) What elements of the rail growth plan are currently unfunded?
- (2) Will the minister table the rail growth plan?

Hon SUE ELLERY replied:

It does not appear to be in my file. If it comes in before the end of question time, I will provide it to the honourable member.
