

ALCOA WORLD ALUMINA, WAGERUP, EMISSIONS

**788. Mr BRADSHAW to the Minister for Health:**

I ask a supplementary question. What action plan has been put in place on those recommendations?

**Mr KUCERA replied:**

A ministerial council has been set up and we have started to move forwards and work towards addressing the recommendations. It will be done in a planned and methodical way, as this Government has done with all these kinds of issues, and in due course we will report to the Parliament on that issue.
