

MRS WENDY YARNOLD

**812. Mr A.P. O'GORMAN to the Minister for Health:**

I have a supplementary question. Do I understand that the minister correctly as saying that the government will fund the modifications to Mrs Yarnold's house so that she can have access to her bathroom in her electric wheelchair?

**Dr K.D. HAMES replied:**

The information that I have been given in the past half hour in response to my anticipation of the member's question is that the Disability Services Commission will send people to her house to look at modifications that can be made to her house to allow her to use the wheelchair. I take the department at its word.
