

INGLEWOOD PRIMARY SCHOOL

683. Hon BARRY HOUSE to the Minister for Education and Training:

When can Inglewood Primary School expect funding to address urgently needed maintenance such as fixing major roof leaks that have caused the evacuation of a classroom and seen the placing of buckets to catch the water?

Hon LJILJANNA RAVLICH replied:

I thank the member for some notice of this question. The leaking roof in question has recently been fixed. Additional funding, to come from the general restoration program and the Fixing Our Schools program, has also been allocated to the school in 2005-06 to address other maintenance issues.
