

HEROIN TRIALS

523. Mr BOARD to the Minister for Health:

It was a straightforward question. The Drug Summit has been held, and the minister has talked a lot about it. Will the minister indicate whether he is prepared to conduct heroin trials in Western Australia?

Mr KUCERA replied:

I will not take a point of order although this question is the same as the previous one. I have already answered that question. I will not allow the good work of the summit to be undone.
