

**WA BIOMASS PTY LTD PROPOSAL**

*Petition*

**HON BARRY HOUSE (South West — Parliamentary Secretary)** [4.05 pm]: I present a petition containing 457 signatures. It is a very long, detailed and comprehensive petition, so I will paraphrase it. The petition is addressed to the President and members of the Legislative Council of the Parliament of Western Australia in the Parliament assembled, and it requests that the Legislative Council undertake an examination of all the facts relating to the WA biomass proposal and its potential negative and very serious impacts on one of our state's most fertile and productive regions.
