

METRONET — NON-DISCLOSURE AGREEMENTS

1271. Hon Tjorn Sibma to the Leader of the House representing the Minister for Transport:

I refer the administration of and governance arrangement for the suite of Metronet projects, and I ask, how many non-disclosure agreements have been entered into by parties including contractor, sub-contractors, local government authorities and others regarding Metronet?

**Hon Sue Ellery replied:**

All METRONET projects are delivered consistent with longstanding confidentiality and non-disclosure clauses that have been used by the Public Transport Authority over time and across many projects.

These clauses are required in order to achieve the best project result, not undermine any commercial and/or procurement outcomes, and be consistent with probity expectations.
