

PEEL HEALTH CAMPUS DAY SURGERY, FUNDING

**698. Mr MARSHALL to the Minister for Health:**

I ask a supplementary question. Will the minister advise me on what page in the budget funds for this project have been allocated, or is it a veiled allocation? Where in the budget is the specific commitment to fund the Peel Health Campus day surgery as was promised by the Labor Party during the election campaign?

**Mr KUCERA replied:**

I cannot give the member the specific page and section number; however, it is included in the new works programs for capital works. A complete list of new works for the next four years is referred to in the *Budget Statements*. Unlike the previous Government, we believe in forward estimates. We believe in proper financial planning, making sure that things are properly planned for, and we also believe in giving good news to the people of Mandurah.
