

GREEN JOBS PLAN —APPOINTMENTS

1242. Hon TJORN SIBMA to the minister representing the Minister for Environment:

I refer again to the government's July 2020 green jobs plan to create 1 000 conservation jobs as part of the WA recovery plan.

- (1) After more than two years, how many of these jobs have been filled?
- (2) Of those filled, were the appointments on a full-time, part-time or casual basis?
- (3) Of those filled, was the employing authority —
 - (a) the state government;
 - (b) the federal government;
 - (c) the not-for-profit or community sector;
 - (d) an Aboriginal body corporate; or
 - (e) the private sector?
- (4) How many of the 1 000 jobs are currently occupied?

Hon SUE ELLERY replied:

I am providing this answer on behalf of the Minister for Emergency Services representing the Minister for Environment, but, as Leader of the House, can I say that is a lot of information requested in a four-hour turnaround time.

- (1)–(4) The green jobs plan includes eight projects, delivered by four state government entities. The Department of Water and Environmental Regulation is directly delivering four of the projects.
