

DEEP SEWERAGE PROGRAM - DONNYBROOK

**606. Hon NIGEL HALLETT to the Leader of the House representing the Minister for Water Resources:**

Will the minister state when construction of the Water Corporation's deep sewerage program is scheduled to start in Donnybrook?

**Hon KIM CHANCE replied:**

I thank the member for some notice of this question. I am a bit surprised that I have the question, because I did not see it come in. It will be my answer, because I have now read and approved it.

Construction of infill sewerage in Donnybrook is scheduled to commence in November 2007.
