

HEAVY INDUSTRY SITE, LOCATION

319. Hon C L Edwardes to the Minister for Planning and Infrastructure

- (1) What is the Government intention on the planning of a location for a heavy industry site to supplement Kwinana?
- (2) Has the Minister ruled out any sites?
- (3) Which locations are the Minister considering?

Ms MacTIERNAN replied:

- (1) In the southern part of the state, the Government will be focusing on the strategic industry locations of Kwinana, Kemerton, and Meenaa.
- (2) The Government has repeatedly made it clear that it does not see there is any need for a strategic industry site at Breton Bay and has instructed LandCorp not to proceed with land purchases on this site. Currently a planning study is underway to determine the most appropriate land uses at Breton Bay and that process is continuing.
- (3) See (1) above
