

WATER CORPORATION — ASBESTOS — MINNIVALE

**893. Mr D.J. KELLY to the Minister for Water:**

I have a supplementary question. Minister, is it not the case that in the briefing I got yesterday I was told that people would be notified, that that process would be completed by last night and that information would be on the Water Corporation's website today? If the minister is serious about doing the right thing, will she commit to an open investigation into what happened and why these people were exposed to asbestos?

**Ms M.J. DAVIES replied:**

I have nothing further to say to that member—absolutely not one word.

*Distinguished Visitors — Ministry of Lands — Sri Lanka*

**THE SPEAKER (Mr M.W. Sutherland):** I wish to welcome 12 employees from the Sri Lankan Ministry of Lands. They are being hosted by Landgate from 17 October to 14 November as part of the Australian Leadership Awards Fellowship Program sharing Australia's land administration expertise to encourage economic resilience in Sri Lanka. Welcome to that delegation.

[Applause.]

*Questions without Notice Resumed*
