

CHEMICAL DOSING PLANT, ALBANY, TRICOAST TENDER

1337. Hon. M.G. House to the Minister representing the Minister for Government Enterprises

With reference to Tender DC-01-10530 for a Chemical Dosing Plant in Albany, on what basis did Tricoast not meet the design requirements?

Mr RIPPER replied:

The conditions of tendering stated that part of the tender submission assessment would include knowledge of Water Corporation design standards. The tender assessment team considered that the Tricoast tender, including additional information supplied on 19 September, had not demonstrated adequate knowledge of the Corporation's design standards.
