

WASTE AUTHORITY — BUSINESS PLAN

703. Hon SALLY TALBOT to the Minister for Environment:

Does the Waste Authority have a current business plan; if so, why has the plan not been made public; and, if not, why not?

Hon DONNA FARAGHER replied:

I thank the member for her question. In response to a question yesterday I said that there was a business plan. The Waste Authority has a work plan operating at the moment. A business plan will be forthcoming once the waste strategy has been finalised. However, it is operating under a work plan with all the activities that I identified yesterday.
