

*Standing Committee on Environment and Public Affairs — Forty-ninth Report —
“Mechanisms for compensation for economic loss to farmers in Western Australia
caused by contamination by genetically modified material” — Motion*

Resumed from 7 August on the following motion moved by Hon Matthew Swinbourn —

That the report be noted.

Hon DIANE EVERS: I believe we had moved on to the next committee report and the continuation of remarks by Hon Nick Goiran. We finished on the report of the Standing Committee on Environment and Public Affairs last week and moved that it be put on for later discussion.

The CHAIR: The question that we agreed to was that consideration of the report would be adjourned to the next sitting of the house. That is where we have now arrived. If you want to move to adjourn it again, I would be quite happy to entertain that.

Hon DIANE EVERS: Yes. I would like it to drop to the bottom of the list and go around the circle.

The CHAIR: I am yet to come to the standing order about dropping to the bottom, but do you want to move that consideration be adjourned?

Consideration Postponed

Hon DIANE EVERS: Yes. I move —

That consideration of the forty-ninth report of the Standing Committee on Environment and Public Affairs be postponed to the next sitting of the house.

Question put and passed.
