

WASTE CONTROL PTY LTD FIRE SITE, SAMPLES

**235. Hon DERRICK TOMLINSON to the minister representing the Minister for the Environment and Heritage:**

In answer to my question of Thursday, 14 June the minister advised that a range of samples had been taken from properties in the vicinity of the Waste Control Pty Ltd fire site including the Bellevue Primary School and areas downwind from the fire site. Will the minister provide details of -

- (a) the location of each site;
- (b) how the samples were taken;
- (c) the nature of the samples taken at each site; and
- (d) the results of analyses of samples from each site?

**Hon KIM CHANCE replied:**

I thank the member for some notice of this question.

Most of the information sought by the member has been made publicly available in a series of newsletters to local residents, which I now table. Additional information on sampling and analysis in relation to the waste control clean-up is in preparation. The Minister for the Environment and Heritage will make copies available when they are printed. I table the attached documents.
