

STATE WASTE STRATEGY

**736. Hon SALLY TALBOT to the Minister for Environment:**

Why has there been such a long delay in releasing the state waste strategy?

**Hon DONNA FARAGHER replied:**

I thank the honourable member for the question.

There has not been a long delay in releasing the state waste strategy. The Waste Authority is preparing a business plan, which will be done in concert with the waste strategy. Once that has been finalised, it will be considered in the context of the proposed state waste strategy.
