

LEGISLATIVE ASSEMBLY ESTIMATES COMMITTEE A

Correction of Answer — Division 16

MR D.J. KELLY (Bassendean — Minister for Water) [4.12 pm]: I rise under standing order 82A. On Thursday, 23 May 2019, during the estimates committee A hearing on fisheries, services 6 and 7 of division 16, I advised that the VR4 receivers within our shark monitoring network cost \$20 000 a unit with installation amounting to \$30 000, pending location. I now advise that the most recently installed VR4 receivers cost \$25 000 each to purchase. Installation costs for VR4 receivers range between \$20 000 and \$50 000 per receiver. Installation costs are dependent upon factors including location, ocean conditions and the ocean floor substrate.
