

PRISON OFFICERS — DRUG TESTS

1200. Hon SOPHIA MOERMOND to the parliamentary secretary representing the Minister for Corrective Services:

How many Western Australian prison officers have been subjected to random drug testing in the past 12 months and —

- (a) how many officers returned a positive drug test;
- (b) of those positive tests, how many were positive for cannabis; and
- (c) what disciplinary action has been taken against those officers returning a positive drug test for cannabis?

Hon MATTHEW SWINBOURN replied:

Member, I do not have an answer for that question in my file. If an answer comes in before the end of question time, I will give it. If not, an answer will be provided tomorrow.
