

ALBANY SENIOR HIGH SCHOOL

**426. Hon BOB THOMAS to the parliamentary secretary representing the Minister for Education:**

- (1) When was the outside of the design and technology and home economics building at Albany Senior High School last maintained?
- (2) Will the parliamentary secretary table an indication of the work that was carried out?
- (3) When is it planned to remove the mould from the building and to paint its exterior?

**Hon BARRY HOUSE replied:**

I thank the member for some notice of this question.

- (1)-(2) I am advised that the roof of the design and technology and home economics building was replaced at an approximate cost of \$124 000 in 1998. There are no relevant documents to table relating to this work.
- (3) The building condition assessment process has identified that the building is in need of repainting. The work is expected to cost approximately \$30 000. The work has not been included in the Albany education district's 2000-01 maintenance program but will be considered for inclusion in the 2001-02 program.
