

MITCHELL FREEWAY ROADWORKS

397. Mr A.P. O'GORMAN to the Premier:

Will the Premier confirm that Western Australian motorists will face traffic jams because of the Public Transport Authority's attempt to save money on this project?

Mr C.J. BARNETT replied:

I do not believe that is the case, but I will get a written response to the member today, if that is possible. I do not see why it should not be. It is obviously desirable to do work such as that at night or on weekends when disruption is minimised. I recognise that commuters in particular have been very much disrupted on the freeway. I will get the member a detailed response.
