

GREENPATCH DEVELOPMENT — WASTEWATER TREATMENT PLANT — DALYELLUP

1347. Hon DIANE EVERS to the Minister for Environment:

I refer to the site management plan for the decommissioned Dalyellup waste residue disposal facility, tabled paper 4615.

- (1) Has the Department of Water and Environmental Regulation received annual environmental reports for 2018, 2019 and 2020 as required by the plan?
- (2) If no to (1), when is it expected to receive them?
- (3) If yes to (1), will the minister please table a copy of each—electronic only is preferred?
- (4) Will the minister please table a copy of Tronox’s final closure plan for the Dalyellup waste residue disposal facility, version 3, July 2018; and, if not, why not?

Hon STEPHEN DAWSON replied:

I thank the honourable member for some notice of the question. I note that in the question that was lodged, it says “electronic only is fine” not “electronic only is preferred”, so there is that difference.

- (1) The Department of Water and Environmental Regulation has received the 2019 and 2018 annual environmental reports.
- (2) The 2020 annual environmental report has not been received, as it is not due to be submitted to DWER until June 2021.
- (3) I table the 2019 and 2018 annual environmental reports.
- (4) DWER has advised that Tronox is currently updating the final closure plan for the Dalyellup waste residue disposal facility as a result of a review from the department. I table version 3 of the plan, which is currently being revised.
