

GREENPATCH DEVELOPMENT — CHROMIUM-6 — DALYELLUP

1301. Hon DIANE EVERS to the Minister for Environment:

I refer to the minister's response to my question on notice 2093 on 5 June 2019.

- (1) Has the Department of Water and Environmental Regulation now received the revised site management plan from Tronox Pigment, formerly Cristal Pigment Australia, addressing the comments from DWER and the Department of Health?
- (2) If no to (1), when is it expected to be received?
- (3) If yes to (1), has the Radiological Council also provided comments?
 - (a) If yes, what are they, and have they been addressed; and
 - (b) if no, when will comments be provided?
- (4) If yes to (1), will the minister please table a copy?
- (5) If no to (4), why not?

Hon STEPHEN DAWSON replied:

I thank the honourable member for some notice of the question.

- (1) Yes.
- (2) Not applicable.
- (3) (a)–(b) The Department of Water and Environmental Regulation did not refer the October 2019 site management plan to the Radiological Council, because the Radiological Council had already provided comments to DWER on the management of radiation in correspondence dated September 2019. This correspondence is included as appendix C of the October 2019 site management plan.
- (4) Yes. I table the attached document.

[See paper [4615](#).]

- (5) Not applicable.
