

BURSWOOD CASINO - GAMING MACHINES

791. Hon BARRY HOUSE to the Minister for Racing and Gaming:

- (1) Is it a fact that the Gallop-Carpenter Labor government recently allowed a substantial increase in the number of electronic gaming machines and table games at the Burswood Casino?
- (2) Why was this done in light of the minister's response to the question asked earlier today?

Hon LJILJANNA RAVLICH replied:

I thank the member for some notice of this question.

Hon Barry House: I didn't give you notice.

Hon LJILJANNA RAVLICH: Sorry; no notice was given. In view of the fact that no notice was given of the question and in view of the fact that I would not under any circumstance want to stand accused of misleading the house, intentionally or unintentionally, I therefore ask the member to put that question on notice.
