

ACCIDENT AND EMERGENCY SERVICES, REPORT

798. Mr TRENORDEN to the Minister for Health:

When will the minister table the report?

Mr KUCERA replied:

That has already been factored into the Health Administrative Review Commission report and I will take advice on the issue. I do not recall seeing the report; my understanding is based on the information in the answer I have just provided. I will make it my business to find out about the content of the report.
