

DRAFT WASTE STRATEGY — WASTE AUTHORITY

688. Hon SALLY TALBOT to the Minister for Environment:

- (1) Has the minister received the draft waste strategy from the Waste Authority of Western Australia?
- (2) If so, when did the minister receive the draft strategy; and when does she expect to make a decision on that strategy?

Hon DONNA FARAGHER replied:

- (1)-(2) I thank the member for her question. I have received an early draft of the waste strategy. I am in consultation with the chairman of the Waste Authority—he was in my office earlier this week on that matter. I expect that we will release that strategy very soon. I am very much looking forward to having comment from the public and, obviously, interested stakeholders on that strategy. We will announce it in due course.
