

OSCAR COMPUTER SYSTEM, MANIPULATION OF THE MEDIA

392. Mrs EDWARDES to the Premier:

The Premier did not answer the second part of my question: the attempted manipulation of the media by a senior member of his staff. The Premier obviously does not know about it. Will the Premier now investigate and report back to the House?

Dr GALLOP replied:

The notion behind the member's question is ridiculous. The assumption is that the media in this State can be manipulated. What a ridiculous statement! I take offence that the Opposition raises this issue in the House. The Government followed up the issue; the Government delivered accountability. The Government has ensured that standards are in place in the State.
