

**WATERLOO-BUSSELTON ELECTRICITY TRANSMISSION LINE
HESELTINE PARK, SEWERAGE PUMPING STATION**

Petitions

HON BARRY HOUSE (South West) [4.02 pm]: I again present two petitions that were presented in the previous session of Parliament. Both contain two signatures. The first concerns Western Power Corporation's proposed alignment of a 132 kilovolt transmission line between Waterloo and Busselton, and the second concerns a proposal by the Water Corporation to establish a sewerage pumping station on Heseltine Park in Glenleigh Road, Busselton. I will not read all the details. Instead, I have generally framed the content of the petitions.

[See papers Nos 129 and 130.]
