

WELLINGTON NATIONAL PARK–WESTRALIA CONSERVATION PARK–
WELLINGTON DISCOVERY FOREST MANAGEMENT PLAN 2008

1200. Hon SALLY TALBOT to the minister representing the Minister for Environment:

- (1) What work has been done by the minister's department or any other agency to monitor the effectiveness and/or implementation of the Wellington National Park, Westralia Conservation Park and Wellington Discovery Forest management plan 2008?
- (2) Have the results of this work been published—for example, in the form of annual reports?
- (3) If no to (2), will the minister table the results of this monitoring?
- (4) Does the minister plan to review the management plan?
- (5) If yes to (4), when and by what process?

Hon DONNA FARAGHER replied:

I thank the member for some notice of the question.

- (1) The former Conservation Commission of Western Australia published a report on 8 March 2016 that contains a review and analysis of the key performance indicators of the Wellington National Park, Westralia Conservation Park and Wellington Discovery Forest management plan 2008.
- (2) The report is publicly available through the Conservation and Parks Commission, and I table a copy of the report for the member's weekend reading.
[See paper 4803.]
- (3) See answer to part (2).
- (4)–(5) No. The management plan is still current.
