

HYDROGEN BUS REFUELLING FACILITY, MALAGA

2921. Mrs C.L. Edwardes to the Minister for Planning and Infrastructure

I refer the Minister to the Proposed Hydrogen Bus Refuelling Facility at Lot324 Victoria Road, Malaga and ask -

- (a) given that this is the first facility of its type in Western Australia, will the State Planning Commission be setting a standard for future developments; and
- (b) if not, who will set standards for future developments?

Ms A.J. MacTIERNAN replied:

- (a) The development has met all relevant planning, environmental and risk standards.
- (b) Any future applications will be considered on their merits and on the basis of policies and standards which are in place at the time of application.
