

KALAMUNDA DISTRICT COMMUNITY HOSPITAL, REDEVELOPMENT

**94. Mr DAY to the Minister for Health:**

I have a supplementary question. If this supposed election commitment by the Labor Party was not included in its costings, why was it distributed in the Darling Range electorate, signed by the Premier, authorised by a Labor Party minister, and printed by the Australian Labor Party?

**Mr KUCERA replied:**

I am advised that the document is not an endorsed election commitment. The Government will do this within the budget process, and will commit to areas of need. It will commit to Labor principles, and the provision of local services. The Government will attend to areas of need in the assets of particular hospitals, and these measures will be included in budget planning.
