

ELECTRONIC GAMING MACHINES

1511. Hon BARRY HOUSE to the Minister for Racing and Gaming:

My question is without notice. I want to see what the minister knows.

- (1) Does the Government intend to extend the availability of electronic gaming machines to Western Australian racecourses, trotting tracks and greyhound racing facilities?
- (2) Has the Government sought and obtained professional and community advice on the costs and benefits of such a move?

Hon N.D. GRIFFITHS replied:

I note the gratuitous comment made by the member before he asked the question. I will not respond in kind.

- (1)-(2) No.
