Dear Marion,

I thought the Committee might like to be aware of the evidence in the link below, if they are not already. It was given by Julie Hocker who is a researcher at the Centre for Human Dignity in Washington DC. It includes statistics on the rise of suicide in general in the American states which have legalized physician-assisted suicide, which is the issue that Neil Francis and I debated and about which the Committee asked me for further information.

Kind regards,
Margo

Good afternoon,

I want to share with you all that last week I went to New York after being invited to testify at the New York State Assembly's Hearing on "Medical Aid-in-Dying." Here is a link to the testimony I provided to the Committee on Health. <https://conservative.org/article/acuf-senior-policy-fellow-julie-hocker-testifies-at-the-new-york-assembly>

Many thanks,
Julie
