Subject: Freights for Broome people

My name is Belinda, I write to you because I am a single parent with two children who has lived in Broome over 25 years now. My extended family live in Perth and as an Education assistant I can not afford to fly my kids to see grand parents more than once a year . It just seems wrong that friends in Sydney can visit us with a link flight through Perth for a cheaper price than we can get to just go to Perth. Please look into this as it seems like price fixing and we suffer - thank you
