**From:**  
**Sent:** Thursday, 19 April 2018 4:00 PM  
**To:** Legislation Committee  
**Subject:** WA ANIMAL WELFARE AMENDMENT BILL 2017

To Mr Mark Warner,

### SUBMISSIONS TO COMMITTEE

The current WA Welfare Act is very limited in it's capacity to regulate matters relating to the health, safety and welfare of animals.

The amendments to the act and new regulations are a tangible step towards improving the welfare of livestock in this State.

Will ensure industry and the community have clear guidance on minimum standards to be met and will help strengthen public confidence in the livestock sector.

There is overwhelming community support of the amendments because there is immense concern by Western Australians for animals well being, particularly now that Inhumane practices in live export are in the spotlight.

Yours Sincerely,

Craig Mansfield
