Subject: Airline fares to Karratha

I'm writing to voice my disgust in airline behaviour in pricing flights to and from Karratha. Many times flights have been excess of \$500 for a 2 hour flight to Perth are have been far from full. These companies are constantly chasing the \$ of big companies with zero consideration to local residents buying flights. This is done to point of being blind to obvious business model that cheaper flights will increase resident use and fill planes in the sky.

Sincerely

Simon
