**Subject:** RSPCA Now Has a Misguided Agenda

Attention:- Select Committee into the operations of The Royal Society for the Prevention of Cruelty to Animals Western Australia (Inc).

I am very concerned about the direction the RSPCA has taken in moving away from their original charter and becoming animal liberationists raters than the voice of protection for mistreated animals!!

I/We feel they should be spending their time, as well as our donation monies and our tax dollars on investigating cases of mistreatment of animals rather than chasing shadows and attacking a legitimate and culturally significant pastime with doctored images in expensive newspaper advertisements aimed at people's emotions!!

I/We are very concerned that a non-government organisation with far reaching powers of search and seizure has little oversight and accountability.
