Dear Mr Stephenson

The current lock out has gone on for long enough

If States such as Queensland and New South Wales can allow access and suffer no detrimental water quality then so can we.

In fact the multiple use of water resources enhances economic activity and creates jobs

Just look at Lake Awoonga, Lake Tinaroo, Peter Faust Dam at Proserpine and other stocked impoundments that not only utilise the water for agriculture but also for

human consumption.

These bodies of water support vibrant sportsfishing businesses both as guiding on the waters but also within nearby towns themselves in the form of

recreation and accommodation businesses.

I myself travel and stay then when fishing those waters.

I would much rather spend my dollars here in WA.

Common sense must apply and the lock out mentality be thrown out
regards

Dean Carnaby
