**Subject:** Flights in broome

My issue with the flights to and from Broome is im from tasmania, i have lived here for 5 years, im a full time second year apprentice with a 2 and a half year old daughtet in daycare full time (exspensive daycare) and my cousins in tassie are all having babies and getting married im lucky to be able to afford one trip to tassie a year to see my family and my grand parents, my family in tassie have only met my daughter once due to the flights being so exspensive i am not able to miss out on my cousins wedding this year coz im in it so i had to go get a loan out just to pay for mine my partners and my daughters ( which may i add she cost the same amount as a adult!!) Tickets just to be able to get there. My grandparents are obviously old abd would like to see as much as my daughters life as possible and they cant come her coz they are retired and just cant afford to get here. Soon broome wont be "the place to come to" its always ooh broome is so exspensive lets go somewhere else which is causing our local shops to close coz they arent getting enough people to come here coz people cant afford it...  
Thats my rant anyway. I just wanna see family more.
