**Subject:** RSPCA Enquiry

I wish to voice my concern regarding the current enquiry into the RSPCA . We need the RSPCA to not only continue to operate but to also have increased powers to make sure the sentient beings ( animals) on our planet are cared for and protected from the aggressive and unthinking within our human species . It is appalling that the existence of the RSPCA is even being questioned considering that the society followed the abolition of slavery and the oppression of women and children . Is Australia regressing to the 1700s and 1800s ? Why does our government continue to support cruelty to animals ? A country is judged on how it deals with these issues and our country is regressing and not progressing to a smarter, kinder and more intelligent society .

I therefore do not support the enquiry or abolishment of the RSPCA and fully support the RSPCA being granted even more powers to progress our march to a more humane society.
