Subject: High cost of travel between Perth - Kununurra

I am unable to see my relatives in my own state on a regular basis due to high airfare costs between Perth and Kununurra.

The high cost also affects them greatly being a family of 4 and sometimes paying over \$2000 in airfares just to fly within the state.

It's an amazing part of Western Australia, one that not even our own residents travel to for holidays given the high cost - they are getting an overseas holiday for much less and see this as better value. Unfortunately this doesn't help our economy or local businesses in the East Kimberley Region.
