Subject: Airfares Kununurra

Good Afternoon,

I'm writing to express concern over the absurdly expensive airfares exiting Kununurra for state and interstate flights. Having three kids and living in a remote area of WA has many challenges, but one of the greatest is getting away – visiting family, taking a break, travelling for funerals and crisis.

The cost of travel makes leaving Kununurra a very challenging task on a family budget. It is also extremely frustrating when we view cheap affordable travel outside of our region.

It not only limits our ability to travel for whatever purpose, it also limits the ability of family and tourists to enter and explore our region.

Your support and inquiry of this issue is vital. Allow us the right to travel affordably, as those in other areas can.

Thank you

Kellie Jackson
