

Work experience with the President

Lucy Moyle undertook work experience in the Legislative Council from 7 - 9 September. During this time, she mainly worked with Dr Julia Lawrinson, Usher of the Black Rod, undertaking various administrative duties, including a significant amount of archiving. She spent some time on the floor of the House, assisting Members of Parliament and other chamber staff, and commented that it was very different actually being in the chamber to watching from the public gallery. As well as this, she spent a morning in the Legislative Council committee office, helping with the compilation of statistics. Lucy is interested in a career in diplomacy, and judging from the way she comported herself during her time in the Council, she is already well on the way to developing the skills she will need in that area.
