Dear Ms Parsons

***UNCORRECTED TRANSCRIPT***

Please find attached proposed corrections to the transcript of evidence provided by you via email on 14 November 2018. In addition to the typographical errors highlighted via track changes, I wish to correct an inadvertent factual error arising from my evidence.

At page 4 I made a statement indicating:

*It may be that there are cost elements associated with all the performance indicators that do not directly relate to the delivery of that service, but we are obligated to try to find a home, if you will, for our expenditure across the nine services and the nine indicators that we have.*

However, I misspoke and in fact while the Department of Water and Environmental Regulation has 9 Services, there are in fact a total of 28 outcome and efficiency indicators. I suggest therefore that the sentence quoted above be amended as follows:

*It may be that there are cost elements associated with all the performance indicators that do not directly relate to the delivery of that service, but we are obligated to try to find a home, if you will, for our expenditure across the nine services and associated indicators that we have.*

Submitted for your consideration. Please do not hesitate to contact me if I can offer any further clarification or assistance.

Yours sincerely
