MILLENIUM SAFETYNET	SERVICES	REV DATE:
	Audit	Review Scope Of Works
Date: 6th July 2017 Builder: HANSSEN PTY LTD Project Name: AIRE Project Manager: Construction Supervisor: Inspection Carried out by:		% Complete = Trades on site: Riggers, Scaffold, Formwork Steel fixers, Plumbers, Electrical, Fire mains, and Labourers
Attendees for the safety Inspection: Copy Sent to: Overall Score 98	Aire mailbo	Class 1: (Penalty points to be deducted 5) Class 2: (Penalty points to be deducted 2) Class 3: (Penalty points to be deducted 1)
General Comments		
Hazardous substance - Vacum systems Scaffold Electrical	clear safe access to a	all locations on site. Great team effort, keep up the good work.
4. Formwork - signage		
Rating Scale:	0 Unacceptabl 1 Poor: 2 Fair: 3 Acceptable: 4 Good:	Attention required before the end of the day Attention required within the next two days
Based On:	 Likelihood of General non- Compliance 	serious injury / major damage to equipment of an incident occurring n-compliance with legal and or site safety requirements substantial but not 100% tisfy both legal and site safety requirements
Not applicable	* Not Applicab	To be place in the appropriate section when not been audited

19. LADDERS / STEP LADDERS (Reg 3.26)	Weight	Achieved	Score	Penalties 5,2,1	OBSERVATION
a) Are ladders erected, compliant with regulations.	10	4	40		
b) Are step ladders / Platform ladders being used for the appropriate work tasks being carried out.	10	4	40		
c) Are all access points clear and unobstructed.	10	4	40		
Total Possible Score	120		120	0	100.00%
20. TILT PANEL & PRECAST CONCRETE (Reg 3.88)	Weight	Achieved	Score	Penalties 5,2,1	OBSERVATION
 a) All personnel including superivsors, have been trained in accordance to an accredited tilt up and precaste concrete course. 	10	4	40		
b) Have all Personnel ie: Riggers/Crane operators signed off on SWMS / JSA procedures and Pre start documents	5	4	20		
c) Documentation, ie: crane logbooks, JSA's / SWMS etc.	5	4	20		
d) Are Crane operators ie: setup as per lifting plan	6	4	24		
e) Shop drawings ie: drawings signed by certified Engineer	6	4	24		
f) Aust Standards 3850-2015 and code of practise for tilt up & precast concrete, are available on site.	4	4	16		
g) Safe erection process, ie; Fall zones, signage and barricades around work areas	10	*	N/A		
h) Braces, ie: locked 2per panel	10	4	40		
i) Are EWP's used in place of ladders	8	*	N/A		
j) Is there safe storage on site for panels ie: not leant against temp brace panel.	8	*:	N/A		
k) Has a permit system been implemented for trades holding tilt up tickets to work around temporary panel props	5	*:	N/A		
Total Possible Score	184		184	0	100.00%
