## *foreword*

The important role played by the Western Australian Institute of Sport in the development of elite sportsmen and sportswomen was never more evident than at the Sydney Olympics when 51 Western Australian athletes represented the State in 20 sports.

Forty-five of those athletes came from WAIS ranks, establishing a new record for the Institute. Our athletes contributed to five of Australia's 16 gold medals, or 31 per cent of the top medals from less than 10 per cent of the nation's population. Eight Western Australians won gold medals, which was another record.

When WAIS was established in 1984, the Government's chief aim was to ensure that talented young athletes would no longer be denied excellent facilities and coaches or be disadvantaged by their isolation from national and international competition.

Certainly the Institute has succeeded. Today it is recognised as a leader in its field. WAIS is the only State Institute with a dedicated state-of-the-art facility and it has a staff that includes world-renowned coaches and sport science experts.

As a Government we have recognised the very valuable role WAIS is playing in providing opportunities for our athletes to reach their full potential and as from July 1 this year we have increased WAIS funding by \$250,000. This should help the Institute maintain its programs at the pre-Olympic level.

On behalf of the Government and people of Western Australia I congratulate all those who have been responsible for the results achieved by the Institute and especially the WAIS Board of Directors under the expert leadership of Neil McKerracher.

Above all, I want to place on record our appreciation for the tireless work carried out by the Director **Wally Foreman**, whose professionalism, enthusiasm and dedication have been crucial to the success of WAIS since its inception. We wish him every success in his future career.

Let me also take this opportunity to acknowledge and thank the private sector sponsors of WAIS and encourage them to continue their outstanding example of corporate citizenship. As Patron I look forward to continued support for the Institute and wish all associated with the programs every success in the coming year.

## *report*

**NEIL MCKERRACHER QC**  
*Chairman*

The quite outstanding achievements of Australian athletes including those from WAIS in the Sydney Olympic Games is a direct product of the quality of the sporting system which has been developed in this country. The Director, in his report, has spoken in detail of the athlete performances and the Board has, on many occasions, and I reiterate on this occasion the warm congratulations to all WAIS athletes who have participated in the build-up to and in the Olympic Games in Sydney. The extent of community support associated with WAIS is determined not only by its athletes' performances but also by their attitudes and examples. We are very proud of their qualities in this area as well as their success in competition.

### **PLANNING FOR THE FUTURE**

Although the hiatus in Federal funding with the cessation of the Olympic Athlete Program (OAP) funding caused problems with the loss of coaches, the reinstatement of funding this year and the increased funding from the State Government will enable WAIS programmes to be developed at a more comprehensive level and quite possibly to expand. The Board has been active in campaigning for funding at Federal and State level and I acknowledge the work done by those involved in this regard.

### **STRATEGIC PLANNING**

Strategic planning for success in and before Athens commenced in 2001 with a weekend retreat of the Board and senior management staff of WAIS. The concepts emerging from that plan will be transformed into practical and achievable goals as the year unfolds. There is a focus on harnessing and seeking to harness as much cutting edge elite sport knowledge as possible. This objective will be pursued without compromise in any way to the existing strengths and values that have been developed through WAIS.

WAIS is most grateful to the State Government and in particular the two Ministers for Sport and Recreation who have provided support to WAIS in the past year, namely the Hon. Alan Carpenter MLA, the current Minister for Sport and Recreation and his predecessor, the Hon. Norman Moore MLC, Minister for Sport and Recreation. Although WAIS is, of course, most grateful for the increase in funding from the current State Government, we also acknowledge the provision of the world standard facility in which WAIS carries out its operations provided when the Hon. Norman Moore MLC held the portfolio. WAIS is conscious that it receives generous Government support and needs to produce the results to justify it. WAIS has, however undergone rather too many reviews in the months leading up to the New Year in response to the notion of accountability. On all occasions it has come through with flying colours.

It is critical to the success of the operations of WAIS which has to compete against others on the world's stage that it be able to operate independently. The independence of WAIS also ensures a capacity to recruit high quality Board members and to secure corporate funding for which we are grateful.

It is also important for the future of sport in Western Australia that Sport & Recreation should remain a stand-alone portfolio.

It was therefore a matter of considerable significance that when other changes were made to Government departments, the Minister has ensured that WAIS has remained independent and that Sport & Recreation has remained a stand-alone portfolio. Although WAIS was keen to impress these views upon the Minister, it was pleasing that he required no persuasion having already reached the same conclusions.

## CHANGE IN PERSONNEL

2001 will be remembered as the year of change for WAIS. The departure of two of its very key figures, namely Wally Foreman as Director and Craig Davies as Program Manager, have been of profound significance. May I pay tribute in particular to the contribution of these two people.

Craig Davies, served WAIS for a period of fifteen years and has been an outstanding contributor throughout that period of time despite personal hardship at times. We wish him and his family great happiness, health and success in his future.

Wally Foreman also retired this year and his successor, Steve Lawrence, has been appointed since the end of the financial year 2000/2001 but it is fitting that recognition of Wally's service be acknowledged in this report. Wally was appointed the inaugural Director of WAIS in June 1984 when WAIS was established by a Cabinet decision in that year. WAIS was the second State Institute to be established in Australia and is considered by many to be a leader in its field. In his capacity as Director of WAIS, he has overseen the Institute's growth from an organisation of 1.5 people with a budget of \$300,000 in 1984 to an organisation of more than fifty people with an operating budget in excess of \$5,000,000.

More importantly, since 1984 WAIS has played the largest single role in directly increasing Western Australia's Olympic representation from twenty-one athletes in six sports to fifty-one athletes in twenty sports in the Sydney Olympics. The number of medals contributed to and achieved at national and international level by Western Australian athletes has correspondingly increased in that period and at Olympic and similar world level, Western Australia continues to achieve success at a rate which is disproportionate to its share of the national population. Wally's impact on sport in Western Australia has been significant over a long period of time and over a wide variety of sports encompassing a broad range of individuals from junior participants right through to the elite athletes. In his role as Director, Wally represented Western Australia in many spheres of Federal activity but particularly in ensuring that there were fair and equitable selection procedures at national and state level for Western Australian sportsmen

and women. In this capacity he has consistently displayed a willingness to fight for the rights of Western Australian athletes. Over and beyond his service within the organisation, Wally has generously given of his time to discuss sporting issues with the secondary and tertiary students and many other charitable and public bodies in both a formal and informal basis. His un-compromised integrity in all aspects of a difficult job has ensured that the reputation of WAIS has stood untarnished.

The outstanding field of candidates to replace him is a reflection of the esteem in which he and WAIS have been held. The Board is confident that many of the qualities referred to above will be reflected in forthcoming years by his successor, Steve Lawrence, who has been an outstanding contributor to WAIS for sixteen years. More will be said of Steve in years to come but suffice it to say that he was at the head of a list of national and international applicants. His devotion to and experience with WAIS together with the fact that he is one of the country's best Applied Sports Scientists, suggest that the future for WAIS is in good hands.

Can I also pay tribute to the support and assistance given by the Chairman of the Sports Centre Trust, Mr Ian Laurance, the Board members of that Trust and the Chief Executive Officer, Mr Graham Moss. WAIS enjoys a very harmonious and effective relationship with the Trust which manages Challenge Stadium.

## CONCLUSION

Finally, can I acknowledge the work that has been done for WAIS by the staff and by its Board. At staff level, can I specifically mention the management team of Frank Murray (who has replaced Craig Davies), Steve Lawrence, Andrea Cavanagh and Carina Svensson (Marketing Manager) and Graham Lee (Finance & Administration Manager). Changes in Board Members have been significant. In particular, through the last year there has been the retirement of John Inverarity, Jamie Lutz and Dr Carmel Goodman from the Board. They were all outstanding contributors to the success of WAIS and played a huge role in these exciting times. Those members have been replaced by Dr Richard Charlesworth, Annette Huygens-Tholen and Fiona Tory.

All members of the WAIS Board have been particularly active during the last year but can I make special mention of the Deputy Chair, Ms Jennifer Edmonds. Staff replacements and strategic planning have required meticulous preparation and attendance at numerous interviews, meetings and other events. The Deputy Chair has borne a very significant burden in these tasks and her devotion to WAIS and wisdom in the decision making process has been invaluable.

I also acknowledge the outstanding contribution of Grant Boyce who chairs the Finance Committee. Grant's professional eye to the financial detail has been of enormous advantage to the smooth running of the financial aspects of the organisation. Additionally he has also played a considerable role in the interview process, particularly for the replacement director. I thank both people sincerely for their contribution.

Neil McKerracher  
Chairman,  
WAIS Board

# *director's* *report*

**WALLY FOREMAN**  
*Director*

The year 2000/2001 was a year of remarkable contrast for all involved with elite sport in Australia.

It was a year of great success and celebration, but was also a difficult year. One dogged in the early stages by funding cuts, unrealistic expectations of athletes and programs and uncertainty over the future of the elite program at all levels.

The unqualified success of the home Olympic Games, and especially the performance of the Australian team, emphatically re-stated the importance of elite sport and our sporting champions to our society. By year's end, the elite program was back on a more substantial and appropriate footing.

The hiccups experienced nationally were felt quite directly by WAIS. Funding cuts resulted in significant program and servicing cuts and staff retrenchments. It was a painful period during which the Board made several hard but brave decisions. However, spectacular performances by WA's Olympic contingent, a turn-around in the Federal Government's attitude to elite sport and a new State Government all produced new energy and hope for the post-Sydney era.

## **ATHLETE PERFORMANCES**

A record 51 WA athletes competed in the Sydney Olympic Games in a record 20 sports. While Australian team sizes have grown, this is a vast improvement on the 22 WA athletes who represented Australia in 6 sports in 1984, WAIS's inaugural year. Forty-five of the 2000 Olympians were or had been WAIS scholarship holders.

Even more pleasing was the record number of eight WA athletes who returned home with gold medals. These athletes – Rechelle Hawkes, Kate Starre (hockey), Bill Kirby, Todd Pearson (swimming), Bridgette Gusterson, Kate Hooper and Danielle Woodhouse (water polo) and Belinda Stowell (sailing) – contributed to 31 per cent of Australia's gold medal total. This was a remarkable achievement for a State with less than 10 per cent of the country's total population.

WA's contribution to the total medal count (11) was solid and remained ahead of the population percentage.

Just as exciting from WAIS's perspective is the vault of talent that has been unlocked in the past two years. In that time an unprecedented 11 young WAIS athletes have won world age-qualified titles in five different sports (athletics, cycling, rowing, sailing and water polo). While the challenge remains to convert these athletes to senior achievers, we are perhaps on the verge of a significant era in WA sporting history

## OPERATIONS

WAIS operated at a reduced level during 2000/2001 due to the reduced Government funding available.

The Institute conducted six primary and five secondary programs and was forced to reduce the level of funding to the higher categories in the individual scholarship program. Expenditure savings were re-allocated to the secondary programs in the second half of the year and by 30 June they had been reinstated to pre-2000 levels.

Craig Davies' resignation from the Program Manager's position after 15 years of committed and loyal service was a critical loss to the organisation. Craig lent a wealth of knowledge and experience to the position and his personal traits, including his humour and his courage, were assets to WAIS.

## BOARD ISSUES

No organisation resisted more vigorously than WAIS the proposed reductions in Government funding to elite sport. The leadership shown by the Board and in particular, the Chairman, Neil McKerracher, was rewarded with the eventual turn-around in funding policies. Neil's commitment to WAIS is unparalleled and critical to its future.

A spate of Government reviews involving WAIS over an extended period of time consumed inordinate amounts of Board and staff time. The eventual decision to retain WAIS's independence within the sport portfolio and its self-sufficient modus operandi were fundamental to its continued success and further testimony to the Board's tenacity.

During the year John Inverarity, Jamie Lutz and Dr Carmel Goodman retired from the Board. The contribution of all three went well beyond what is expected of Board members and WAIS benefited enormously from their expertise and experience. They were replaced by Dr Richard Charlesworth, Annette Huygens-Tholen and Fiona Tory.

## NATIONAL ISSUES

The success of the 2000 Olympic team via the Olympic Athlete Program (OAP) clearly demonstrated that Australia has arguably the best elite development system in the world. This system is based on the network of independent institutes, whose work is co-ordinated by the National Elite Sports Council (NESC).

WAIS remains a strong supporter of this concept.

The great challenge at the national level remains finding a place in the sun for the Australian Institute of Sport (AIS) that doesn't compromise the total system. Maximum funding must go to the athletes, wherever they're located. If the system is to operate at optimum levels, funding cannot be quarantined at the AIS and athletes cannot be coerced to move to AIS programs to justify its existence. That having been said, the Federal Government's financial contribution to the OAP must be recognised.

## STAFF

I would like to recognise the outstanding and unselfish efforts of all staff during a difficult but exciting year. In particular, I would like to thank the management group of Craig Davies and Frank Murray (Programs), Steve Lawrence (Science), Graham Lee (Finance), Andrea Cavanagh and Carina Svensson (Marketing) for their contribution and support.

## CONCLUSION

As I prepare to leave WAIS after 17 challenging and exciting years, there are some special thanks that I would like to offer.

Firstly, to the Governments of Western Australia for their bi-partisan support of WAIS. This has been fundamental to WAIS's continued development and to our athletes fulfilling their potential.

Secondly, to all the Board members with whom I have had the privilege to serve and especially the Chairmen Bruce Elliott, Chilla Porter and Neil McKerracher. Their support and counsel, particularly in the difficult times was invaluable. Thank you also to David Hatt who gave me the opportunity to lead WAIS in the first place.

To Steve Lawrence and Craig Davies, with whom WAIS and I grew, thank you for your loyalty, your friendship, your unwavering support in the trenches and the many laughs.

And finally, to the athletes and the coaches, thank you for the opportunity to share your remarkable journey. You have been nothing short of inspirational.

To everyone associated with WAIS, thank you and good luck. WAIS will always be a part of me.

**W J Foreman**  
Director

# 2000 *Olympic games* Sydney, Australia

A record contingent of 45 current or former WAIS scholarship holders represented Australia at the Sydney Olympic Games in 20 sports. This was 88 per cent of WA's total contingent of 51 athletes.

Eleven WAIS athletes won medals, with the impressive number of eight athletes winning gold medals. This was a record number of West Australian gold medallists.

WAIS athletes contributed to five of Australia's 16 gold medals or 31 per cent of the gold medal tally. This was a spectacular result from a State with less than ten per cent of the population.

The representation and the results in Sydney represent a significant improvement on WA's representation in its inaugural year, 1984. In that year WA had 22 representatives in six sports and they won two silver and two bronze medals.

# 2000 *Paralympic* *games* Sydney, Australia

WA and WAIS were strongly represented at the Paralympic Games with the 27 strong WA contingent continuing the State's outstanding tradition in Paralympic competition.

Twenty one WAIS athletes shared a total of 32 medals, 11 of which were gold.

The performance of the Australian team at these Games was nothing short of remarkable and the West Australian contribution was equally as impressive.

## WAIS Medallists

### GOLD

Paul Mitchell	Athletics – 1500 metres
Paul Clohessy/Darren Harry	Cycling – Tandem Sprint
Mathew Gray	Cycling – Mixed 1km Time Trial Mixed Olympic Sprint
Mark Le Flohic	Cycling – Tricycle Time Trial 5 km Division 2
Lyn Lepore/Lyn Nixon	Cycling – Women's Tandem Road Race
Jamie Dunross	Sailing – Three Person Sonar
Graeme Martin	Sailing – Three Person Sonar
Noel Robbins	Sailing – Three Person Sonar
Paul Barnett	Swimming 100 metres breaststroke
Kingsley Bugarin	Swimming 200 metres individual medley 100 metres breaststroke

# administration

## STAFF

WAIS operated at its lowest staff levels for some years during 2000/2001.

At the end of the year it had 37 full-time and 8 part-time employees.

The upgrading of the secondary programs and the proposed addition of one new program will necessitate increased staff levels.

The loss of three manager's (Programs, Finance and Marketing), all in the space of seven months, was a testing period for WAIS. This transition period was managed with minimal disruption.

## ACCOMMODATION

WAIS remains the only State institute or academy of sport in Australia with its own stand-alone administration and science facility.

The benefits of this facility, which was provided by the WA Government, were highlighted by WA's Olympic performances, and will be evident for many years to come.

Our close proximity to Challenge Stadium greatly enhances the daily training environment for the majority of WAIS's athletes. The support provided by the management of this venue is critical to WAIS's performance.

The WAIS facility is functional and attractive and should serve WAIS's needs for the next decade.

## MARKETING

WAIS continues to receive outstanding support from the corporate sector and in particular its Major Sponsors, **Coca Cola Amatil Western Australia**, **The Swan Brewery Company Ltd**, **ANZ Banking Group**, **TWV Channel 7** and **Bunnings Warehouse**.

These companies make a substantial contribution to WAIS and through their association with us, enhance our image and reputation.

**Hungry Jacks'** support as a Program Sponsor (netball) and that of our Official Suppliers, **PDR Sports** (clothing) and the **JDS Group of Companies** (printing and design) is also important and appreciated.

**Qantas** remains WAIS's Official Airline and **National Rail** and **Toll Express** continue to support the canoeing program.

The WAIS Supporters' Club, initiated in 1999/2000, has not been as successful as anticipated and requires specific attention.

Maintaining the image and profile of the organisation remains an important aspect of the Marketing Department's role.

The Marketing Manager's position will have changed three times in nine months by August 2001 and it urgently needs stability. Peter Conroy's continued support during this period has been appreciated.

*The WAIS corporate television commercials were re-made in 2001.*

# hall of champions

The Hall of Champions project perpetuates the achievements of Western Australia's best athletes.

At the 2000 Annual Dinner three more champions were inducted into the Hall. They were:

<b>Brian Peake</b>	<b>Australian Football</b>
<b>Christine Stanton</b>	<b>Athletics</b>
<b>Terry Walsh</b>	<b>Hockey</b>

Eighty five athletes in 22 different sports are now recognised in the Hall, which is based at Challenge Stadium.

The selection committee for the Hall of Champions comprises **Ian Brayshaw, Liz Chetkovich, Alan East, Wally Foreman (Chairman), David Hatt, Glenn Mitchell** and **Pam O'Connell**.

The future development of this project is dependent on a suitable sponsor and additional space being found.

\* Foundation Members

*Three major titles, including an Olympic gold medal earned Belinda Stowell the Athlete of the Year Award.*

# athlete of the year

In a year in which Olympic champions abounded, yachtswoman, Belinda Stowell, claimed the WAIS Athlete of the Year Award.

Belinda's stand-out performance was her convincing win, with her partner Jenny Armstrong, in the 470 class of the Olympic sailing competition. This performance was well supported by her victories in the national championships, the European Championships and a silver medal in the World Championships.

Belinda won the award from two other Olympic gold medallists, water polo captain, Bridgette Gusterson and hockey champion, Rechelle Hawkes.

The Award is decided by the WAIS Board and the judging period is 1 October to 30 September.

## PREVIOUS WINNERS

1984/85	Jenny Byrne	(Tennis)
1985/86	Robert Waller	(Cycling)
1986/87	Christine Stanton	(Athletics)
1987/88	Craig Parry	(Golf)
1988/89	Craig Davies	(Hockey)
1989/90	Ian Brown	(Swimming)
1990/91	Robyn Lambourne	(Squash)
1991/92	Sharon Buchanan	(Hockey)
1992/93	Ramon Andersson	(Canoeing)

1999/00	Belinda Stowell	(Sailing)

# sport science

The start of a new Olympic cycle has seen the Sport Science department re-assess its operational strategies and focus. To maximise the scientific resources available to WAIS the department has developed formal relationships with the UWA Departments of Exercise and Sport Science and Mechanical Engineering, Curtin University School of Public Health, Edith Cowan University of Sport Science and a French Institute, vielfe.

The department continues to service the athletes and coaches of WAIS and the AIS hockey units with scientifically based monitoring, education, intervention and research functions in the areas of biomechanics, nutrition, medicine, physiology, psychology, strength and conditioning and talent identification. The department also continues to support the organisation through the development and maintenance of information technology.

WAIS is currently exploring the potential for research collaborations with the AIS and NTIS in the area of heat. The environmental conditions expected during the Athens Olympic Games have the potential to adversely effect a large range of athletic performances and further scientific information is required to ensure that we can minimise the effect on Australian athletes.

WAIS entered into an arrangement with the AIS Department of Physiology and the UWA Department of Exercise and Sport Science to create a Sport Based PhD scholarship in the area of applied physiology. Matt Spencer has returned to WAIS to take up this scholarship. Matt will be focussing on servicing the national and AIS men's hockey programs and conducting research into repeated sprint physiology.

Mathew Burgin a Masters psychology student from the University of Southern Queensland has been assisting Evan Stewart in providing psychology services to WAIS and in particular the WAIS netball program as part of a year long placement.

Claire Rechichi took maternity leave during the year and Kelly Yates a physiologist from the New South Wales Institute of Sport (NSWIS) has been employed to continue her work. Technical Officer Peter Nguyen has left WAIS to pursue other career options. Peter made a significant contribution to WAIS and we wish him well in his new employment.

*Psychologist Evan Stewart helping Taekwondo scholarship holders (L to R) Kavita Kumar, Kristy-Anne Sparre, Amy Ash and Tina Morgan with the mental aspects of their sport.*

# *talent search*

*sponsor: Healthway*

*National age finalist, Natalie Bale, was identified 18 months ago through the Smarter Than Smoking WAIS Talent Search Program.*

The **WAIS Smarter Than Smoking Talent Search Program** continues to build on the successes of its first years of operation. This year the program expanded by more than 10 percent in the number of schools participating in the primary identification phase.

A new initiative was undertaken for netball. The program is being used to help identify and fast track the development of young players who have the physical attributes required of an elite netballer. Over 140 young girls attended the first selection with 16 girls selected to undertake an intensive development program.

The sports of canoeing, rowing and athletics now have well established programs to support the initial development of identified talent. The progress of athletes from the initial development programs into elite athlete development pathways of the state sporting organisations is clearly established. Natalie

Bale, a 1999 entrant into the rowing program, has progressed to the WAIS development squad and represented the state in national age group finals. Andrew Storer was selected in 2000 to enter the athletics program. Within 3 months Andrew had qualified for the National All Schools Championship and was extended an invitation to compete in the Perth Athletics Grand Prix. Jesse Philips, who was identified in the 1999 canoe program, this year won 3 gold, 2 silver and a bronze medal at the National Canoe Championships in his age classification.

WAIS is confident that with knowledge learned from the initial years of operation, the **WAIS Smarter Than Smoking Talent Search Program** will continue to develop and enhance the opportunities for young Western Australians to maximise their sporting potential.

# *athlete career & education program*

The last 12 months have seen a consolidation of the Athlete Career and Education (ACE) program at WAIS. Greg Thorne continues as Co-ordinator and Mathew Burgin a Master of Psychology student from the University of Southern Queensland is undertaking a 12 month placement with ACE and Sport Psychology. Matthew previously worked in the ACE program at the Queensland Academy of Sport.

A major focus of the program this year has been the provision of transition assistance to athletes as a result of the 2000 Olympic Games. This assistance has fallen into two categories: de-selected athletes and retiring athletes. Prior to the Games de-selected athletes were assisted. After the Games a number of athletes retired and needed assistance in setting a new direction in their lives. A complicating factor for some athletes was that employment was not as easy to find as may have been expected. Other ACE services such as career counselling, education assistance, and personal development workshops continued to be provided. Service delivery became more pro-active as the year progressed while maintaining an holistic philosophy addressing all aspects of the individual's life. ACE and sport psychology continue to work together closely.

*ACE Co-ordinator Greg Thorne working with shooter Robyn Van Nus to plan a balanced lifestyle during and after her sporting career.*

Links with the National ACE program have strengthened and the National Manager, Judy Flanagan, continues to provide valuable support and direction.

Spherion (previously Interim Technology) continues to provide scholarships to WAIS athletes. Links have also been established with Curtin University of Technology, University of Western Australia, Murdoch University, and Edith Cowan University. These links will further enhance the impact of the WAIS ACE program.

# sports programs

During 2000/2001 WAIS conducted eleven Squad programs covering 290 athletes. WAIS also allocated 126 individual scholarships to assist athletes with their development, preparation and competition.

This was essentially a rebuilding year for many of our programs as we sought to replace six coaches across six of our eleven squad programs. This situation was brought about by the uncertainty of funding in the post-Olympic period and the attractive salaries being offered to coaches elsewhere.

Martin Barras (cycling) moved to the United Kingdom, Krzysztof Lepianka (canoeing) to the United States, Nick Garratt (rowing) to NSWIS, Ralph Richards (swimming) to Victoria and Mark Hager (hockey) to a national coaching position. The athletics Head Coach's position remained vacant. During this period, WAIS was prepared to bide its time to ensure it obtained quality replacements.

WAIS worked closely with Canoeing Australia to find an enthusiastic and capable coach in Brendan Purcell from Queensland. Steve Lemke was recruited to head the Athletics program following a brief period back in the US and Neil Hawgood returned to Australia from the UK to take over the Men's Hockey program. WAIS acquired the services of Antonio Maurogiovanni, a former Italian Olympic rower who played an integral coaching role with the Italians at the last two Olympics.

*Damon Diletti tended the Australian Goal at his third Olympics and added a bronze medal to his collection.*

*Photo courtesy of Sport the Library*

Throughout the year WAIS, in conjunction with the National and State bodies, ran squad programs in eleven sports and assisted individual athletes in another sixteen sports.

Squad programs were conducted in the following sports:

Athletes With Disabilities	Hockey (Men)
Athletics	Hockey (Women)
Baseball	Netball
Canoeing	Rowing
Cycling	Swimming
Gymnastics	

Considerations in determining a sport's suitability to establish a WAIS squad are:

- The number of registered competitors.
- The talent base available in WA.
- The coaching expertise available.
- The ability of WAIS to add value to the elite program in the sport.
- WA's historical record in the sport.
- The sport's local and international profile.
- The sport's infrastructure and underpinning programs.
- The availability of training and competition facilities.
- The sport's Olympic status.

The ability of the national and state bodies to work co-operatively with WAIS and their willingness to assist in the provision of resources can also be a factor in the establishment of a program.

Individual scholarships were awarded to athletes in:

Archery	Judo
Athletics	Rowing
Badminton	Shooting
Beach Volleyball	Swimming
Boxing	Taekwondo
Canoeing	Tennis
Cycling	Triathlon
Diving	Yachting
Gymnastics	Weightlifting
Ice Skating	Wrestling

These scholarships are awarded to athletes in Olympic events and disciplines on the basis of international and national rankings.

## ATHLETE SERVICES:

As scholarship holders, athletes have access to the following services:

- International standard coaching.
- Sport science resources and expertise.
- Medical advice and expertise.
- Program management.
- Travel and accommodation services.
- Career and education assistance.

*Paul Mitchell - 1500m Paralympic and World Championship gold medallist stretches the field on the way to another win.*

All twenty-seven Western Australian athletes selected for the 2000 Paralympics were supported through the Athletes with disabilities (AWD) Program. The primary focus of the program was to assist athletes in offsetting training related expenses in the final phase of their preparation.

In total, 21 athletes brought 29 medals west: ten gold, eight silver and eleven bronze.

Once again **Kingsley Bugarin** (Swimming) starred in the pool by winning gold in both the 200m medley and 100m breaststroke and a silver in the 400m freestyle. **Paul Barnett** (100m breaststroke) and **Priya Cooper** (400m freestyle) also won gold.

The cycling team dominated on the road and the track, with the WA contingent winning four gold, two silver and five bronze medals. **Mathew Gray** sliced nearly three seconds off the world record to win the 1km mixed time trial and backed up to win the mixed sprint. **Paul Clohessy** and partner **Darren Harry** rode a technically perfect race to win the tandem sprint. **Lyn Lepore** teamed with **Lyn Nixon** to win a medal of each colour: gold in women's tandem, silver in the tandem time trial and bronze in the tandem pursuit.

**Kevin McIntosh**, Head Coach of the WAIS Cycling Program was also Head Coach of the Paralympic team and as a result of the success of the cycling team was named Australian Paralympic Committee Coach of the Year.

Other athletes assisted by WAIS who won gold medals were track and field athlete **Paul Mitchell** (1500m) and sailors **Jamie Dunross**, **Graeme Martin** and **Noel Robins** (three-person keelboat).

*A bold tactic almost snared an Olympic medal for pole vaulter Dmitri Markov.*

The Olympic Games were the highlight of the international calendar. **Dmitri Markov** was the best-performed WAIS athlete finishing fifth in the pole vault with a leap of 5.80m. **Paul Burgess**, in his first Olympic campaign, just failed to qualify for the final with a vault of 5.55m to place sixteenth.

**Emma George** was courageous in vaulting 4.25m. Whilst this was well below Emma's best, she was competing with stress fractures in both feet. They were operated on immediately after the Games.

**Susan Andrews** showed her versatility in racing over the 800m and finishing 24th, as well as being a member of the women's 4 x 400m relay squad. **Lauren Poetschka** battled injury to place 26th in 400m Hurdles and **Alison Inverarity**, competing in her last competition before retirement, jumped 1.80m in the high jump.

Wheeler, Kylie	Lyn Foreman

Eleven WAIS athletes experienced international competition in 2000/2001. Seven athletes were selected in the Australian Olympic Team, two in the World Junior Team and a further two for the Australia vs South Africa Test Match.

Two exciting WAIS juniors competed at the World Junior Championships in Poznan, Poland. **Andrew Hall** threw the javelin 67.42m but failed to qualify for the final, while **Shermin Oksuz** leaped 6.05m in the long jump final to place ninth.

**Kylie Reed** (long jump) and **Kym Howe** (pole vault) were members of the Australian team that beat South Africa in a test match, in South Africa. Four of the states best prospects, Burgess, Howe, **Nicole Mladenis** and **Kylie Wheeler** all represented Australia at the East Asian Games.

Oksuz, Mladenis (triple jump) and Markov all won senior National titles with Oksuz's leap of 6.65m highlighting the 17-year-old's real potential.

**Steve Lemke** returned to WAIS as the Head Coach in April, after a two-year absence. WAIS coach, **Lyn Foreman**, was named as National Youth coach in March.

Lemke, working in close co-operation with the new national coach, Keith Connor, is implementing a new structure for the development of elite athletes in WA. Connor's support for the WAIS program has been refreshing and augurs well for the sport in WA.

# baseball

The year commenced with the AAA and AA tours. Four players, **Ben Rowe**, **Daniel Floyd**, **Chris Innes** and **Paul Pragnell**, toured with the Under 19 National Team to the World AAA Championships in Edmonton, Canada. **Rhys Wheldon** and **Daniel Innes** were selected in the Under 17 National Team which traveled to Vancouver, Canada.

WAIS Head Coach, **Don Kyle**, assisted in the preparation camp for the Australian Olympic Team with **Mark Ettles**, **Michael Moyle** and **Clayton Byrne**. OAP athletes assisted by WAIS, gaining selection in the final team.

In the off-season, WAIS and Baseball WA combined their resources to organise a series of training sessions and games. These sessions were aimed at increasing the skill level and competition opportunities for athletes in the 13 – 18 year age bracket and enabled the WAIS and State coaches to run a watchful eye over the athletes. In all, 45 athletes in three teams played round robin fixtures.

In January, Kyle was given the opportunity to join the Baltimore Orioles spring training camp to stay abreast of developments in the game and to maintain contacts with colleges and scouts who are influential in providing opportunities for WAIS athletes.

Two WAIS athletes signed professional contracts this year. **Dean White** (Atlanta Braves) and **Rhys Wheldon** (Minnesota Twins), joined previous WAIS athletes **Daniel Floyd** (Seattle Mariners) and **Stephen Tope** (Minnesota Twins) in the US league. **Ben Rowe** signed a contract with the Oregon State University.

The format of the National domestic competition was changed this year with a centralised International Baseball League Association (IBLA) competition conducted in Queensland. The lack of a senior interstate or national league competition leaves an obvious gap in the elite athlete pathway and is a problem that needs to be addressed.

<b>HEAD COACH:</b>	Don Kyle	
<b>COACHES:</b>	Kevin Hooker, Mark Pettit	
<b>ATHLETES:</b>	Adamson, Robin Eiffler, Dylan Harris, Drew Innes, Daniel Morrison, Matthew Tope, Adam Wheldon, Rhys	Dale, Lachlan Forkin, Nick Hughes, Luke Lawton, Rhys Thomas, Bradley Van Kampen, Kristian White, Dean

<b>HEAD COACH:</b>	Krzysztof Lepianka (until March 2001)	
<b>ATHLETES:</b>	Bird, Tim Lewis, Beau Owen, Emily Simper, Amanda	Forgione, Kate Oldenhof, Lisa Seidl, Emily Simper, Rachel

*Lisa Oldenhof made her debut in the senior National team after strong performances at the National titles.*

The past twelve months was a testing time for the canoeing program. Uncertainty of program funding, Olympic selection issues, the resignation of the Head Coach and glandular fever contracted by a number of athletes, ensured the year was never going to be easy.

**Amanda Simper's** selection in the Ladies K4 for the Olympics was the highlight of the year. Selection controversy surrounded this crew and may account, in part, for them not reaching the final.

The National Championships held in Penrith in March, was **Krzysztof Lepianka's** last coaching duty before leaving to take up a coaching position in Atlanta, USA. Krzysztof had been with WAIS for almost five years and his contribution was significant. Following Krzysztof's departure, the program was fortunate to engage the services of former Olympian, and WAIS athlete, **Ramon Andersson**, to fill the void until WAIS could recruit a quality coach.

At the conclusion of the 2001 selection process, two WAIS athletes, **Lisa Oldenhof** and **Tim Bird** were selected in the National team to compete in the World Championships in Poland in August 2001. Lisa is a graduate of the Talent Identification program and has progressed through the National Team ranks. The State Association has been impressive in their support of the centralised Junior Development program. This is the next step up from the WAIS Smarter than Smoking Talent Search program and the sport now has the foundations of a sound structure in place. This structure will allow athletes to progress from the grassroots level to the elite.

Toll Express remained an official supplier to the program. However, the withdrawal of their support by National Rail will once again pose interstate travel problems. Transportation, the need to upgrade equipment and junior development will be the biggest challenges for the program next year.

*Dual Junior World Championship gold medallist Ryan Bayley a potential cycling powerhouse.*

<b>HEAD COACH:</b>	Kevin McIntosh (Until 23rd February 2001)	
<b>ATHLETES:</b>	Bayley, Ryan Dawson, Peter Lawrence, Tyson Rutherford, Hayley Suckling, Scott	Cullen, Brodie Godridge, Ben Mackey, Daniel Steele, Ric

The cycling program is currently benefitting from the development work done by former WAIS coaches, **Martin Barras** and **Kevin McIntosh**. Most of the athletes in the program came through the WAIS development U/17 and U/19 programs and are now making their mark at senior national and junior international level.

**Ryan Bayley** became the first Australian to win two gold medals at a World Junior Championship when he won the Individual Sprint and a member of the Olympic Sprint team. Ryan won gold in the Olympic Sprint and Flying 200m at the National Championships and placed second in the Individual Sprint. He followed this with Gold Medal performances in both the Individual Sprint and Olympic Sprint events in the Oceania Championships in Sydney and was then a member of the 4th placed team in the Olympic Sprint event at the World Cup in Columbia.

**Peter Dawson** and **Brodie Cullen** were selected to represent Australia in the 4000m Teams Pursuit at the 2000 World Junior Championships. Whilst unable to repeat his winning performance at the 1999 championship in the Teams Pursuit, Peter secured second place in the 4000m Individual Pursuit.

Peter, along with **Ric Steele**, who was selected in the national road squad for the Junior World Championships, were invited to a three month training period with the National/AIS U/23 squad at their training base in Italy. They joined fellow WAIS athlete

# *cycling*

**Daniel Mackey** who spent six months of the year racing and training with that squad.

**Hayley Rutherford** established herself in the National women's road squad in 2000. Hayley also trained and raced for six months in Italy. Whilst placing 14th overall herself, she played an important supporting role in teammate Anna Wilson's victory in the Canberra World Cup event.

**Scott Suckling** finished a meritorious second in the Commonwealth Bank Classic.

Following his success with the Paralympic cycling team, Kevin McIntosh was offered the position of Australian Paralympic Cycling Head Coach. This necessitated him relocating to Adelaide and his consequent resignation from the WAIS program. Darryl Benson, who had been doing some work with our sprinters, has been contracted to fill the position until Australian Cycling's new national program is finalised.

*Allana Slater drew on her Olympic experience to become the first Australian to win an apparatus Gold medal at a World Cup event.*

The program continues to operate at a high level, both competitively and organisationally.

At the end of June 2001, there were 45 athletes in the squad with seven girls training towards 2004, 24 towards 2008 and 14 towards 2012.

In November, **Allana Slater** followed her contribution to Australia's seventh placing at the Olympic Games, with a performance that won Australia's first ever gold medal in a World Cup event. At the DTB World Cup event in Stuttgart, Germany, she won the uneven bars title and placed second on floor.

In December, Allana became the first ever Australian to compete in a World Cup final, qualifying on Bars, Beam and Floor. She won the silver medal on Bars behind the Olympic silver medallist Lie Jing from China, and placed fifth on Beam and sixth on Floor.

The Australian Gymnastics Federation named Allana as the 2000 Women's Senior Gymnast of the Year. WAIS's Head Coach **Nikolai Lapchine** was named the 2000 Women's Coach of the Year. **Joanne Richards** won the Womensport West Coach of the Year award.

<b>HEAD COACH:</b>	Nikolai Lapchine	
<b>SENIOR COACHES:</b>	Joanne Richards	
<b>COACHES:</b>	Vladimir Joura, Martine George	
<b>DEVELOPMENT COACHES:</b>	Dhana Antulov – part-time, Jane Collins – part-time, Carly Brockis – part-time, Brenda Kent – part-time	
<b>ATHLETES:</b>	Le, Tam	Senior International
	Slater, Allana	Senior International
	Smith, Jenny	Senior International
	Wilson-Mitchell, Amanda	Senior International
	Dowell, Rebecca	Junior International
	Economou, Barbara	Junior International
	Kooy, Susan	Junior International
	Lauren, Sarah	Junior International
	O’Connell, Louise	Junior International
	Worthington, Kelly	Junior International
	Flugge, Verity	Junior National
	Joura, Daria	Junior National
	Lauren, Amy	Junior National

In January, **Sarah Lauren, Louise O'Connell** and **Amanda Wilson-Mitchell** were all selected to compete in the Sydney Youth Festival. Sarah placed sixth in the All Around event.

WAIS gymnasts achieved some outstanding results in the 2001 National Championships. **Amanda Wilson-Mitchell** took the Senior International Vaulting title and **Sarah Lauren** was runner-up for the All Around in the Junior International division. Sarah was subsequently selected to represent Australia against China and Russia in July 2001.

This year saw the retirement of two of WAIS's finest gymnasts. **Jenny Smith** and **Tam Le** both announced their retirements after a long involvement with WAIS. Jenny represented Australia at the Atlanta Olympic Games and two World Championships as well as numerous other international events. Tam had represented Australia at seven international competitions.

WAIS continues to benefit from the input and regular visits of National Coach **Peggy Liddick**. She provides motivation and support both to the athletes and the coaches.

Challenge Stadium, WAIS and Gymnastics WA are continuing with a combined effort to ensure that the Challenge Stadium Gymnastics training facility is maintained at the highest level. Challenge, through the efforts of Centre Manager, **Rob Verboon**, will provide the necessary finance to upgrade the matting and landing surfaces. This will help maintain its status as a world class training facility – a fact recognised by the national body with the possibility of national training camps to be held in Perth in the future.

# hockey

## men's

2

7

sponsor: *The Swan Brewery Company Ltd*

The men's hockey program continues to provide the base of support that enables men's hockey in WA to maintain the high standards and success that it has come to enjoy over a long period of time.

The Olympic bronze medal for **Damon Diletti** and **Paul Gaudoin** was the highlight of the year. The national squads were revised after the NHL season. **Bevan George** and **Scott Webster** joined Gaudoin in the National Senior Squad. **Aaron Hopkins** was named in the Development Squad. Diletti was unavailable for selection due to playing commitments in the Netherlands.

In December, Head Coach, **Mark Hager** resigned to accept the Assistant Coach's position with the national women's program. Former Australian international **Neil Hawgood**, who had been coaching in England, replaced him as ITC Men's Coach in February.

The Perth Thundersticks were again a force in the National Hockey League (NHL). Under immense pressure to win their third title in a row, and under the direction of coach, **Michael Nobbs**, the team performed creditably to be narrowly defeated by NSW in the final.

The National U21 Championships in May 2001 was the final opportunity for athletes to impress selectors in their quest for selection in to the Junior World Cup squad. The WA team, which finished on top of the table, was unlucky to lose in a penalty shoot out in the semi final. The team recovered to win the play off for third. Six members from the WAIS program were named in the revised National Junior World Cup Squad: **Geoff Boyce, Michael Boyce, Leon Martin, Richard Gibson, Daniel Trigwell** and **Craig Lynn**. **Matthew Montgomery** was unlucky not to be re-selected after being chosen to play in three tests against New Zealand in late 2000.

A shift in program selection policy will see a bigger emphasis placed on youth. The primary objective of the program remains the improvement of the skill level of players with a view towards selection in Australian senior and junior teams. The program continues to be very well supported by both Hockey Australia and the Western Australian Hockey Association.

*In Control. Paul Gaudoin's skills earned him a place in Australia's Olympic bronze medal winning team.*

women's

The highlight of the year was the Olympic gold medals won by two long-standing WAIS athletes, **Rechelle Hawkes** and **Kate Starre**, as members of the gold medal winning Hockeyroos. Rechelle received her third Olympic gold medal before announcing her retirement from the sport. Kate Starre collected her second gold medal.

Unfortunately **Michelle Andrews** missed Olympic selection through continuing injury problems.

*Kate Starre earned her second gold medal from three Olympic campaigns as a key member of the Hockeyroos.*

The retirement of these three players, who had given so much to the WAIS program over a very long period, paved the way for a new-look WAIS Diamonds in 2001.

A tough pre-season program was organised for a targeted squad of some sixty players. Following this, WAIS Diamond and Sydney Olympic Youth Festival squads were chosen. The squads were selected in early December.

In Sydney in January, under the guidance of WAIS Head Coach **Kevin Knapp**, the Sydney Olympic Youth Festival team won a bronze medal. With an inexperienced team, the WAIS Diamonds retained fourth position in the National League. This was a creditable performance given the turnover in players and it augurs well for the future.

A new initiative for the program was the commencement of an indoor competition. This provided valuable playing time in the lead up to the National League before the outdoor season had commenced.

With the appointment of a new national coaching staff and the retirement of many of the Sydney Olympians, a new look Hockeyroos squad was announced in April. Two WAIS athletes, **Emily Halliday** and **Kim Walker** were chosen in this squad.

**Shayni Buswell** and **Sian Smithson** were selected in the Junior Women's World Cup team that won bronze. **Lisen Hockings** and **Tate Napier** were named in the National Development squad while **Kirsten Bremner** and **Kate Hubble** were selected in the Australian Commonwealth Youth Games team.

WAIS Head Coach, Kevin Knapp, provided valuable assistance to the National team acting in a scouting role, both at the Champion's Trophy and at the Olympic Games. His inside knowledge of the Dutch team was a significant contribution.

<b>HEAD COACH:</b>	Gaye Teede	
<b>DEVELOPMENT COACH:</b>	Jon Fletcher	
<b>ATHLETES:</b>	<b>PERTH ORIOLES</b>	<b>WAIS POWER</b>
	Andrews, Sam Browning, Sally Cox, Catherine Eastcott, Hayley Edwards, Tanya Elborough, Rebecca McClure, Jenna Mitchell, Fiona Nykyforak, Natasha Pearce, Natalie Ring, Diane Seinor, Waveney Shynn, Jessica Vidler, Anna	Beaney, Angela Beckett, Emma Beveridge, Kate Daviot, Renee Franklin, Bianca Franklin, Bree Johnston, Melissa Lazenby, Kate Lee, Abbi Mazzini, Kacy Santaromita, Amanda Stene, Kathryn

*Reaching for success. Diane Ring, a key member of the Orioles defence.*

Following the sixth placing of the Perth Orioles in the National League, the year 2000 ended with WA performing creditably to finish in fourth position at the Open National Championships held in Launceston in November. This competition provided a sound launching pad for young local talent wishing to stake a claim for inclusion in the Orioles program for 2001. Three members of the 2000 HUNGRY JACKS WAIS POWER team, **Hayley Eastcott**, **Jenna McClure** and **Tasha Nykyforak** moved directly into the 2001 Orioles Squad, again highlighting the pathway provided through the WAIS development program.

The Perth Orioles' 2001 season began full of promise with the re-signing of national representative **Catherine Cox**, the recruitment of defenders **Sally Browning** and **Samantha Andrews** and the emergence of local youngsters **Anna Vidler**, **Jessica Shynn** and **Catherine Devitt** to combine with experienced campaigners, **Waveney Seinor** and **Diane Ring**.

For a second year in succession a pre-season team tour to South Australia was incorporated to offset the lack of suitable competition locally. This preparation returned an immediate dividend with a round one win against the Queensland Firebirds.

Subsequent performances in the first round saw the Perth Orioles competitive statistically with all opposition teams. They posted an improved number of attempts and restricted opposition teams to fewer attempts, only to struggle to convert the opportunities to a winning score on the board.

**Catherine Cox** and **Sally Browning** were selected in the Australian Senior Squad with **Jessica Shynn** and **Anna Vidler** selected in the National 21 & under squad. Catherine and Jessica made the final teams. Four WAIS Development Squad members were rewarded with selection in National Talent Identification Squads: **Kodie Blay** and **Gemma Johnston** at the 19 & under level and **Angela Beaney** and **Kirby Bentley** at the 17 & under level.

The HUNGRY JACKS WAIS POWER team finished the 2000 season in third position and despite a number of personnel changes at the start of 2001, the young team (average age 16.2 years) continues to provide their Division 1 State League opponents with a very high level of competition. This points to a bright and exciting future for WA Netball.

The rowing program continues to develop and boasts a number of athletes of national and international potential.

**Stuart Reside** and **Sally Robbins** were members of the respective Quad Sculls for the Olympic Games. **Nick Garratt** coached the men and **Uwe Bender** the women. The boats finished fourth and seventh respectively.

**Neil Dennis** and **Stefan Szczurowski**, under the guidance of Coach **George Xouris**, rowed their way to a second successive gold medal at the 2000 Junior World Championships. The Junior Women's Coxless Four, under the guidance of **Gavin Russell**, won a silver medal at this championship. All four crew members were WAIS athletes: **Elizabeth Devitt**, **Jess Harker**, **Sarah Outhwaite** and **Heidi Sounness**.

**Josh Keogh** and **Luke Pougnauld** were members of the Men's Coxed Four at the World Cup in July 2000. The Nations Cup (U/23), in July, produced a silver medal for **David Dennis** and **David McGowan** as members of the Men's Coxless Four. **Kenny Chan** coxed the Lightweight Men's Eight to a bronze medal at the World Championships with **Glen Loftus** and **Ben Cureton** as members of that crew.

The 2001 Australian Rowing Championships held in April 2001 saw eighteen WAIS athletes contribute to nine national titles. The most impressive title being the Senior A Double Scull won by Neil Dennis and Stefan Szczurowski. Both athletes were still eligible for Senior B competition.

At the East Asian Games held in Osaka, Japan, in May 2001, five WAIS athletes contributed to three gold medals: the Men's Coxless Pair, the Men's Coxless Four and the Men's Eight. WAIS Head Coach, **Uwe Bender**, was appointed Head Coach of the Australian team for these Games.

As a result of some outstanding performances over the past twelve months, WAIS athletes earned eleven positions on the Australian teams to compete in the 2001 Nations Cup (U23) and World Championships. Uwe Bender was again appointed to both National teams as one of the coaching panel.

With the increasing number of rowers gaining national senior selection, the challenge for the program will be to ensure the flow of athletes from junior to senior ranks continues. In an expensive sport, it will be important that there is a combined effort from all stakeholders to ensure the athletes are provided with the necessary opportunities.

*Stefan Szczurowski and Neil Dennis have made a successful progression from junior to senior international competition.*

<b>HEAD COACH:</b>	Uwe Bender

HEAD COACH:	Ralph Richards (Until 31st December 2000)	
	SCHOLARSHIP	
	ATHLETES:	COACH:
	Bush, Mark	Lester Watkins
	Church, Jarrad	Bernie Mulroy
	Cosgrove, Carmen	Matt Brown
	Greville, Julia	Graham McDonald / Dennis Cottrell
	Harris, Rachel	Bernie Mulroy
	Matkovich, Antony	Bernie Mulroy/AIS
	Lucas, Adam	Grant Stoelwinder
	Reilly, Jennifer	Roger Bruce
	Spicer, Matthew	Roger Bruce
	Smith, Tammie	Bernie Mulroy
	Steer, Cassandra	Bernie Mulroy
	Van Hazel, Jonathan	Bernie Mulroy

*Jennifer Reilly remains Australia's number one female medley swimmer.*

A crop of young and talented swimmers started to make their mark at Senior National level this year. The effects of head coach **Ralph Richard's** distance program were positive with **Tammie Smith** and **Cassandra Steer** being competitive over the distance events in their first senior season. Smith and Jarrad Church were both selected in the National team to compete at the East Asian Games.

**Jennifer Reilly** had an outstanding year finishing eight in the final of the 400 metres individual medley at the Sydney Olympic Games. She followed this with three gold and two silver medals in the individual medley events at the three World Short Course Cups. Her good form continued into the National Championships. A win in the 400m individual medley and a second in the 200 individual medley saw her qualify for both events at the World Championships in Japan.

**Rachel Harris** also qualified for the Olympics in both the 400m individual medley and the 800 freestyle at the Olympic trials. She placed twelfth in both events.

The 2000/2001-year was also one of athlete relocations and retirements. World Championship medallist, **Julia Greville**, retired from the sport after battling with a serious shoulder injury. **Antony Matkovich** headed to Canberra to join former WAIS swimmers **Todd Pearson** and **William Kirby** at the AIS. **Carmen Cosgrove**, **Mathew Spicer** and **Rachel Harris** all accepted scholarships at universities in the United States.

Following the departure of Ralph Richards, a new structure is being put in place to ensure the elite swimmers in WA have every opportunity to develop from within this environment. A WAIS coaching panel has been established to work co-operatively with ASI and WASA to ensure a consistency of purpose between all stakeholders. The initial signs are promising, and it is hoped that this structure will revive the elite end of the sport in WA.

	Belinda Imgrund	William Murray			

There were several outstanding performances by athletes in these sports.

#### **Belinda Stowell**

Belinda and her partner, Jenny Armstrong, won Australia's first Olympic gold medal in sailing in 28 years and the first ever by an Australian women's crew when they won the 470 Class at the Sydney Olympic Games.

In November 2000, as a result of this and previous outstanding performances, Belinda was named WAIS Athlete of the Year for 1999/2000, the first sailor to achieve this honour.

Post-Olympics was the perfect time for Belinda to attend to an old swimming injury that was affecting her sailing. She underwent surgery to repair her right shoulder. She has been gradually easing herself back in to the sport, having committed to another Olympic campaign.

#### **Robin Bell**

Robin represented Australia in the Men's C1 event in Sydney where he finished ninth in the final.

He enjoyed a short break from paddling post-Sydney before successfully defending his National C1 title at Penrith in January. He then teamed up with fellow WAIS athletes, Kynan Maley and Hew Roberts, to win the National C1 Teams event.

Due to tertiary studies, Robin elected to miss the early World Cup events in Europe. He resumed competition in July.

#### **Pauline Manser**

A fifth placing at the Sydney Olympic Games capped off a successful year for Pauline and her South Australian partner, Tania Gooley. The pair finished ninth at the World Championships in Chicago and steadily improved on the World Tour, culminating with their performance in Sydney. The Gold Medal pairing of former WAIS scholarship holders, Kerri Pottharst and Natalie Cook were the only Australian pairing to finish higher than them.

#### **Liz Blatchford**

In 2000, Liz shook off the injuries that had hampered her as a national junior athlete to make her mark on the senior circuit. Competing as a first year senior, Liz was named "Rookie of the Year" in the National Formula One series. Her third placing at the National Championships secured her place in the World Championship team. This was followed with a sixth placing at the Ishigaki World Cup event, indicating that the future is bright for this talented and dedicated athlete.

*Olympic finalist Robin Bell is committed to continued success at the international level.*

**THE OBJECTIVES OF THE INSTITUTE ARE AS FOLLOWS:**

1. To provide opportunities for talented Western Australian sportspeople to achieve excellence in high performance sport from within their home environment.
2. To provide opportunities for young West Australians to further develop their sporting careers in association with or as a part of their education or work.
3. To organise and promote sporting meetings for the purpose of developing the personal skills and levels of excellence of WA's sports people.
4. To equip and conduct sport science laboratories to assist the development of sporting excellence.
5. To conduct research that will assist the development of sporting excellence.
6. To provide and disseminate sport science information and literature.
7. To provide and develop coaching resources, facilities and information and to make the same available to assist the development of sporting excellence.
8. To assist, where possible, sports people of other countries who may be engaged in competition or training in WA.
9. To seek and administer funds to be used to develop and promote sporting excellence amongst West Australian individuals and teams through the provision of travel, competition, equipment, information or any other requirement.
10. To act as the trustee for any foundation or project that may be established to promote and develop excellence in sport.

## AUDITOR GENERAL

To the Parliament of Western Australia

### WESTERN AUSTRALIAN INSTITUTE OF SPORT FINANCIAL STATEMENTS FOR THE YEAR ENDED JUNE 30, 2001

#### Scope

I have audited the accounts and financial statements of the Western Australian Institute of Sport for the year ended June 30, 2001 under the provisions of the Financial Administration and Audit Act 1985.

The Board is responsible for keeping proper accounts and maintaining adequate systems of internal control, preparing and presenting the financial statements, and complying with the Act and other relevant written law. The primary responsibility for the detection, investigation and prevention of irregularities rests with the Board.

My audit was performed in accordance with section 79 of the Act to form an opinion based on a reasonable level of assurance. The audit procedures included examining, on a test basis, the controls exercised by the Institute to ensure financial regularity in accordance with legislative provisions, evidence to provide reasonable assurance that the amounts and other disclosures in the financial statements are free of material misstatement and the evaluation of accounting policies and significant accounting estimates. These procedures have been undertaken to form an opinion as to whether, in all material respects, the financial statements are presented fairly in accordance with Accounting Standards, other mandatory professional reporting requirements and the Treasurer's Instructions so as to present a view which is consistent with my understanding of the Institute's financial position, the results of its operations and its cash flows.

The audit opinion expressed below has been formed on the above basis.

#### Audit Opinion

In my opinion,

- (i) the controls exercised by the Western Australian Institute of Sport provide reasonable assurance that the receipt, expenditure and investment of moneys and the acquisition and disposal of property and the incurring of liabilities have been in accordance with legislative provisions; and
- (ii) the Statement of Financial Performance, Statement of Financial Position and Statement of Cash Flows and the Notes to and forming part of the financial statements are based on proper accounts and present fairly in accordance with applicable Accounting Standards, other mandatory professional reporting requirements and the Treasurer's Instructions, the financial position of the Institute at June 30, 2001 and the results of its operations and its cash flows for the year then ended.

K O O'NEIL  
ACTING AUDITOR GENERAL  
November 23, 2001

## AUDITOR GENERAL

**To the Parliament of Western Australia**

**WESTERN AUSTRALIAN INSTITUTE OF SPORT  
PERFORMANCE INDICATORS FOR THE YEAR ENDED JUNE 30, 2001**

**Scope**

I have audited the key effectiveness and efficiency performance indicators of the Western Australian Institute of Sport for the year ended June 30, 2001 under the provisions of the Financial Administration and Audit Act 1985.

The Board is responsible for developing and maintaining proper records and systems for preparing and presenting performance indicators. I have conducted an audit of the key performance indicators in order to express an opinion on them to the Parliament as required by the Act. No opinion is expressed on the output measures of quantity, quality, timeliness and cost.

My audit was performed in accordance with section 79 of the Act to form an opinion based on a reasonable level of assurance. The audit procedures included examining, on a test basis, evidence supporting the amounts and other disclosures in the performance indicators, and assessing the relevance and appropriateness of the performance indicators in assisting users to assess the Institute's performance. These procedures have been undertaken to form an opinion as to whether, in all material respects, the performance indicators are relevant and appropriate having regard to their purpose and fairly represent the indicated performance.

The audit opinion expressed below has been formed on the above basis.

**Audit Opinion**

In my opinion, the key effectiveness and efficiency performance indicators of the Western Australian Institute of Sport are relevant and appropriate for assisting users to assess the Institute's performance and fairly represent the indicated performance for the year ended June 30, 2001.

## Certification of Financial Statements

We hereby certify that the accompanying financial statements of the Western Australian Institute of Sport (Inc.) have been prepared in compliance with the provisions of the Financial Administration and Audit Act, 1985 from proper accounts and records to present fairly the financial transactions for the financial year ended 30 June 2001 and the financial position as at 30 June 2001.

At the date of signing we are not aware of any circumstances which would render the particulars included in the financial statements misleading or inaccurate.

<b>CASH ASSETS AT THE END OF THE FINANCIAL YEAR</b>	29	<u><u>886,793</u></u>	<u><u>500,949</u></u>

The Statement of Cash Flows should be read in conjunction with the accompanying notes.

## 1. Statement of Accounting Policies

The following accounting policies have been adopted in the preparation of the financial statements. Unless otherwise stated these policies are consistent with those adopted in the preceding year.

### (a) General

The financial statements constitute a general purpose financial report which has been prepared in accordance with Australian Accounting Standards and UIG Consensus Views as applied by the Treasurer's Instructions. Several of these are modified by the Treasurer's Instructions to vary the application, disclosure, format and wording. The Financial Administration and Audit Act and the Treasurer's Instructions are legislative provisions governing the preparation of financial statements and take precedence over Australian Accounting Standards and UIG Consensus Views. The modifications are intended to fulfil the requirements of general application to the public sector together with the need for greater disclosure and also to satisfy accountability requirements.

If any such modification has a material or significant financial effect upon the reported results, details of that modification and where practicable, the resulting financial effect is disclosed in individual notes to these financial statements.

### (b) Leased Assets

The Institute's rights and obligations under finance leases, which are leases that effectively transfer to the Institute substantially all of the risks and benefits incident to ownership of the leased items, are initially recognised as assets and liabilities equal in amount to the present value of the minimum lease payments. The assets are disclosed as property, plant and equipment under lease, and are amortised to the statement of financial performance over the period during which the Institute is expected to benefit from use of the leased assets. Minimum lease payments are allocated between interest expense and reduction of the lease liability, according to the interest rate implicit in the lease.

Finance lease liabilities are allocated between current and non-current components.

The principal component of lease payments due on or before the end of the succeeding year is disclosed as a current liability, and the remainder of the lease liability is disclosed as a non-current liability.

The Institute has entered into an operating lease arrangement for motor vehicles where the lessor effectively retains all of the risks and benefits incident to ownership of the items held under the operating leases. Equal instalments of the lease payments are charged to the statement of financial performance over the lease term, as this is representative of the pattern of benefits to be derived from the leased property.

### (c) Grants and Other Contributions Revenue

Grants, donations, gifts and other non-reciprocal contributions are recognised as revenue when the Institute obtains control over the assets comprising the contributions. Control is normally obtained upon their receipt.

Contributions are recognised at their fair value. Contributions of services are only recognised when a fair value can be reliably determined and the services would be purchased if not donated.

(d) Depreciation and amortisation of non-current assets

All non-current assets having a limited useful life are systematically depreciated over their useful lives in a manner which reflects the consumption of their future economic benefits.

Depreciation is provided for on the straight line basis, using rates which are reviewed annually. Useful lives for each class of depreciable asset are:

Plant & equipment:

Sports Science Equipment	3-10 years
Administration Software	3-5 years
Computer Hardware	3-5 years
Sports Science Weight Training Equipment	3-5 years
Sports Science Software	3-5 years
Sports Programs Equipment	2-15 years

Office equipment: 3-5 years

Building improvements: 5 years

(e) Inventories

Stocks are valued on a "first in first out" basis at the lower of cost and net realisable value.

(f) Employee Entitlements

Annual leave

This entitlement is recognised at current remuneration rates and is measured at the amount unpaid at the reporting date in respect to employees' service up to that date.

Long service leave

A liability for long service leave is recognised, and is measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given, when assessing expected future payments, to expected future wage and salary levels including relevant on costs, experience of employee departures and periods of service. Expected future payments are discounted using interest rates to obtain the estimated future cash outflows.

This method of measurement of the liability is consistent with the requirements of Australian Accounting Standard AAS 30 "Accounting for Employee Entitlements".

Superannuation

Contributions to employee superannuation funds are charged as expenses when incurred.

(g) Revenue

Sales revenue represents revenue earned from the sale of goods and services net of returns, allowances and duties and taxes paid. Other revenue is fully described in the statement of financial performance.

(h) Accounts Receivable, Accounts Payable, Accrued Salaries and Borrowings

Accounts Receivable are recognised at the amounts receivable and are due for settlement no more than 30 days from the date of recognition.

Collectability of accounts receivable is reviewed on an ongoing basis. Debts which are known to be uncollectable are written off. A provision for doubtful debts is raised where some doubts as to collection exist.

Accounts Payable, including accruals not yet billed, are recognised when the entity becomes obliged to make future payments as a result of a purchase of assets or services. Accounts payable are generally settled within 30 days.

(i) Net Fair Values of Financial Assets and Liabilities

Monetary financial assets and liabilities are not traded in an organised financial market and therefore carrying amounts of accounts receivable, accounts payable and accruals approximate net market value.

(j) Resources Received Free of Charge or For Nominal Value

Resources received free of charge or for nominal value which can be reliably measured are recognised as revenues and as assets or expenses as appropriate at fair value.

**31 Remuneration and Retirement Benefits of Senior Officers****Remuneration**

The number of Senior Officers other than members of the Institute whose total fees, salaries and other benefits received or due and receivable for the financial year, falls within the following bands:

\$0 - \$10,000	-	1
\$10,001 - \$20,000	1	-
\$20,001 - \$30,000	1	-
\$30,001 - \$40,000	1	-
\$40,001 - \$50,000	-	1
\$50,001 - \$60,000	-	1
\$60,001 - \$70,000	2	1
\$70,001 - \$80,000	-	1
\$100,001 - \$110,000	1	-
\$110,001 - \$120,000	1	1
	<u>7</u>	<u>6</u>

Total remuneration of senior officers is:

<u>435,103</u>	<u>355,934</u>
----------------	----------------

The above figures include wages, salary sacrifice superannuation, motor vehicle expenses and fringe benefits tax on those benefits.

**Retirement Benefits**

In respect of Senior Officers other than members of the Institute, the following amounts were paid or became payable for the financial year:

Contributions to the AMP Superannuation Plan	<u>28,485</u>	<u>28,348</u>
--	---------------	---------------

**32 Remuneration of Auditor**

Total fees paid or due and payable to the auditors of the Institute for the financial year is as follows:

Fee to the Auditor General - external audit	<u>14,000</u>	<u>13,000</u>
---	---------------	---------------

## 33 Additional Financial Instrument Disclosures

## Interest Rate Exposure

The Institute's exposure to interest rate risk on financial instruments is as follows

30 June 2001	Weighted average effective interest rate	Floating interest rate	Fixed Interest Rate		Non- interest bearing	Total
			Maturities			
	%	\$	1 year or less \$	1 to 5 years \$	\$	\$
<b>Assets</b>						
Cash - Investment accounts	4.60%	1,969	700,000	-	-	701,969

**34 Activity/Output Information**

The Western Australian Institute of Sport operates within one industry segment, and therefore no segment reporting is necessary.

**35 Explanatory Statement****(a) Comparison of actual results with those of the preceeding year**

Details are provided for significant variations between actual revenue (income) and expenditure and the corresponding item of the preceeding year. Significant variations are considered to be those greater than 10% or \$10,000.

	Actual 2001 \$	Actual 2000 \$	Variance \$	Variance %
<b>Expenditure</b>				
(i) Employee expenses	2,235,567	2,503,608	(268,041)	(10.7%)
Decrease due to				
a) Staff leaving after the Olympic Games and the replacement process taking more time than expected.				
(ii) Supplies and services	968,705	1,300,359	(331,654)	(25.5%)
Decrease due to				
a) Reduction in the level of activity in sport programs in the post-Olympic period due to coaching staff changes and athletes reducing their training and competition intensity.				
(iii) Other expenses from operating activities	560,173	761,921	(201,748)	(26.5%)
Decrease due to				
a) Reduction in the level of activity in sport programs in the post-Olympic period due to coaching staff changes and athletes reducing their training and competition intensity.				
<b>Income</b>				
(i) Commonwealth grants and contributions	414,004	755,461	(341,457)	(45.2%)
Decrease due to				
a) Significant reduction in the funds received from the Australian Sports Commission following the Olympic Games.				
(ii) Net profit on sale of fixed assets	7,207	1,331	5,876	441.5%
Increase due to				
a) Sale of assets that had been fully depreciated.				
(iii) Other revenues from ordinary activities	706,866	788,190	(81,324)	(10.3%)
Decrease due to				
a) Reduction in revenues of a reimbursement nature.				
(iv) State Grants	3,070,000	3,250,000	(180,000)	(5.5%)
Decrease due to				
a) Reduction in the Special Grant from the State Government to meet expenses relating to increased costs leading up to the Olympic Games.				

**Notes to the Financial Statements**

30 June 2001

**(b) Comparison of actual results for 2001 with estimates for 2001**

Details are provided for significant variations between actual revenue (income) and expenditure and the corresponding budget estimate for the year. Significant variations are considered to be those greater than 10% or \$10,000.

	Actual 2001 \$	Estimate 2001 \$	Variance \$	Variance %
<b>Expenditure</b>				
(i) Other operating expenses	560,173	770,275	(210,102)	(27.0%)
Decrease due to				
a) Reduction in the level of activity in sport programs in the post-Olympic period due to coaching staff changes and athletes reducing their training and competition intensity.				
b) Contingency funds for GST implementation not required.				
<b>Income</b>				
(i) Interest	48,732	15,000	33,732	224.9%
Increase due to				
a) Greater level of funds on investment throughout the year.				
(ii) Other Operating Revenue	658,134	456,695	201,439	44.1%
Increase due to				
a) Revenues of a miscellaneous or reimbursement nature not budgeted due to their uncertain nature.				
(iii) Commonwealth grants and contributions	414,004	389,000	25,004	6.4%
Increase due to				
a) Higher level of funding from Australian Sports Commission than estimated.				

**36 Capital Commitments**

There are no capital commitments at 30 June 2001.

**37 Contingent Liabilities**

There are no contingent liabilities at 30 June 2001.

**38 Events occurring after Reporting Date**

There have been no significant events occurring after balance date that require reporting under AAS8.

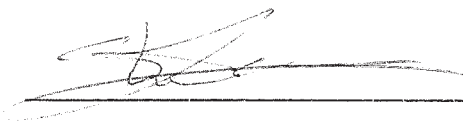

### Certification of Performance Indicators

We hereby certify that the accompanying Performance Indicators are based on proper records and fairly represent the performance of the Western Australian Institute of Sport (Inc.) for the year ended 30 June 2001

DATED THIS 21 OF November 2001

Mr N McKerracher  
Chairman  
Board  
Western Australian Institute of Sport (Inc)

Mr S R Lawrence  
Director  
Board Member  
Western Australian Institute of Sport (Inc)

The following Performance Indicators demonstrate the extent to which the Western Australian Institute of Sport's outcome has been achieved.

**Outcome:** To provide opportunities for talented Western Australian sports persons to achieve excellence in high performance sport from within their home environment.

WAIS has produced performance indicators that provide a benchmark for a satisfactory level of achievement for WAIS athletes and the Institute.

WAIS has based its performance on the following indicators that measure the achievement of Western Australian sports persons at the national/international level.

## 1. Effectiveness Indicators

WAIS is to provide opportunities for talented (elite) Western Australian sports people to achieve excellence in high performance sport from within their home environment.

A talented athlete is defined by the national institute network as being an athlete who is of Australian Open team standard in his or her sport. A potentially elite athlete is an athlete who has the ability to achieve Australian Open team standard within a five year period.

Three indicators are used to measure the extent to which WAIS is meeting its objective.

### 1.1 WA's Representative Numbers in Australian Open Teams

The aim is to achieve ten per cent representation in Australian Open teams in sports supported by WAIS. This figure is based on WA having approximately ten percent of the national population.

**WA Representation in National Teams in WAIS Sports as a Percentage of Team Size**

NOTE: The following programs have closed:  
Basketball (womens), Waterpolo (mens) in the 1999/2000 year, and  
Waterpolo (womens) in the 2000/2001 year.

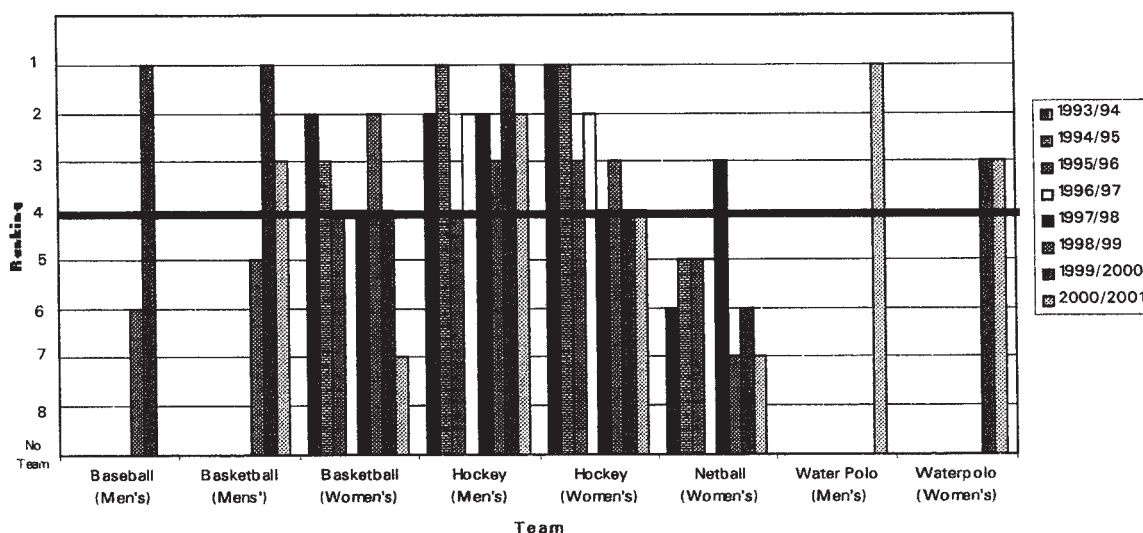

## 1.2 National Rankings of WA Open Teams

The aim is for each team supported by WAIS to achieve a ranking of four or higher. This ranking is based on WA's percentage of the national population (ten percent).

The Perth Heat (Men's Baseball) and the Wildcats (Men's Basketball) have been included in the rankings as WAIS offers indirect support.

State senior teams supported by WAIS attained the following national rankings.

**WAIS Effectiveness Indicator  
State Senior Team National Ranking**

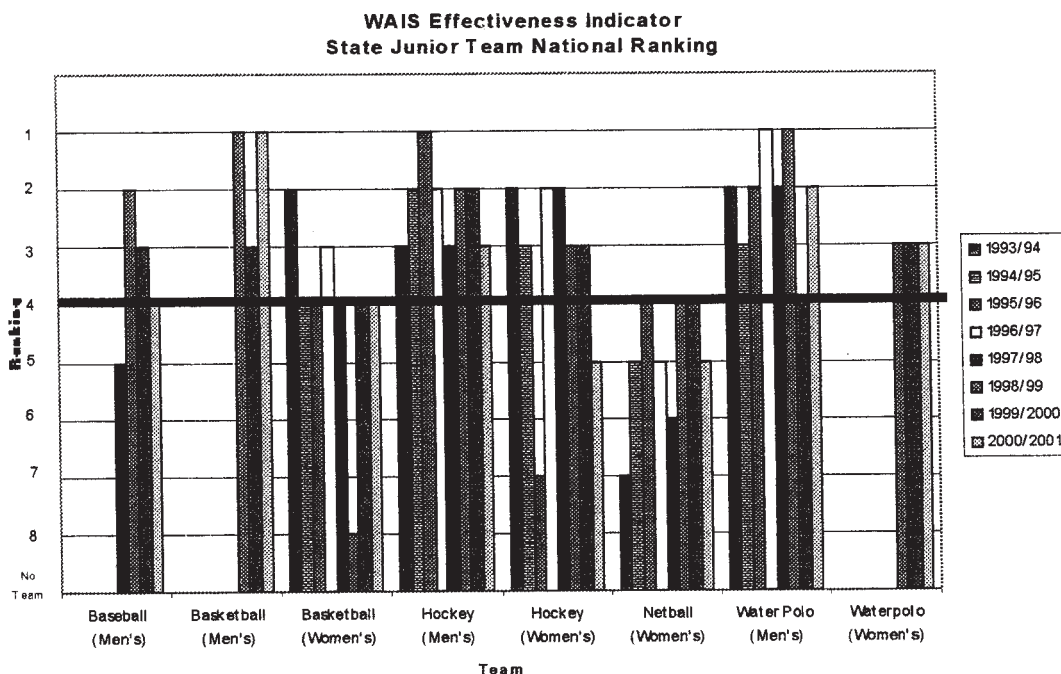

**Note:** The Women's Softball and Men's Soccer programs closed during 1999/2000 and the Women's Waterpolo program was started during 1999/2000 and closed during 2000/2001.

### 1.3 National Rankings of WA Junior Teams

The performance of the oldest junior State team in sports supported by WAIS is relevant in measuring the number of potentially elite athletes that are moving through the WAIS system.

A national ranking of four or higher for these teams is acceptable, based on WA's percentage of the national population (ten percent).

It should be noted that results in all junior competitions can fluctuate from year to year, depending on the aims of the program and the turnover of players.

**Output:** To train, manage and support Western Australian Athletes.

## 2. Efficiency Indicators

This indicator provides an efficiency measure which shows the average cost of providing services to athletes. It shows that WAIS is responding to its responsibility to provide more opportunities for talented Western Australian athletes by providing cost efficient management and support systems to meet the high performance requirements of our talented athletes.

The number of athletes at the Western Australian Institute of Sport comprises of athletes in squads and athletes awarded Scholarships. The number of athletes granted scholarships are determined at the beginning of the financial year. The number of athletes in squads is determined periodically throughout the year when the squads are put together.

The cost per athlete is determined on the total operating expenditure of the Western Australian Institute of Sport. The cost per athlete has decreased from \$16,690 in 2000 to \$13,440 in 2001. This has been caused by:

- a) Reduction of program intensity immediately following an Olympic year, and
- b) Reduction of program intensity due to a large turnover of senior coaching staff.

**WAIS Efficiency as indicated by Financial Cost per Athlete Supported**
